Women and Religion in England Patricia Crawford, 2014-03-18 Patricia Crawford explores how the study of gender can enhance our understanding of religious history in this study of women and their apprehensions of God in early modern England. The book has three broad themes: the role of women in the religious upheaval in the period from the Reformation to the Restoration; the significance of religion to contemporary women, focusing on the range of practices and beliefs; and the role of gender in the period. The author argues that religion in the early modern period cannot be understood without a perception of the gendered nature of its beliefs, institutions, and language. Contemporary religious ideology reinforced women's inferior position, but as the author shows, it was possible for some women to transcend these beliefs and profoundly influence history.

Female Devotion and Textile Imagery in Medieval English Literature Anna McKay, 2024 Uncovering the female voices, lived experiences, and spiritual insights encoded by the imagery of textiles in the Middle Ages. For millennia, women have spoken and read through cloth. The literature and art of the Middle Ages are replete with images of women working cloth, wielding spindles, distaffs, and needles, or sitting at their looms. Yet they have been little explored. Drawing upon the burgeoning field of medieval textile studies, as well as contemporary theories of gender, materiality, and eco-criticism, this study illustrates how textiles provide a hermeneutical alternative to the patriarchally dominated written word. It puts forward the argument that women's devotion during this period was a fabricated phenomenon, a mode of spirituality and religious exegesis expressed, devised, and practised through cloth. Centred on four icons of female devotion: Eve, Mary, St. Veronica, and of course, Christ, the book explores a broad range of narratives from across the rich tapestry of medieval English literature, from the fields of *Piers Plowman* to the late medieval *Morte d'Arthur*, the devotions of Margery Kempe to the visionary experiences of Julian of Norwich, Gervase of Tilbury's fabulous *Otia Imperialia*, to the anchoritic guidance literature of the Middle Ages, and the innumerable and oft-forgotten lives of Christ, prayers, legends, and miracle tales in between.

Marian Devotion in Thirteenth-century French Lyric Daniel E. O'Sullivan, 2005-01-01 Texts centred on the mother of Jesus abound in religious traditions the world over, but thirteenth-century Old French lyric stands apart, both because of the enormous size of the Marian cult in thirteenth-century France and the lack of critical attention the genre has garnered from scholars. As hybrid texts, Old French Marian songs combine motifs from several genres and registers to articulate a devotional message. In this comprehensive and illuminating study, Daniel E. O'Sullivan

Sullivan examines the movement between secular and religious traditions in medieval culture that Old French religious song embodies. He demonstrates that Marian lyric was far more than a simple mindless imitation of secular love song. On the contrary, Marian lyric participated in a dynamic interplay with the secular tradition that different composers shaped and reshaped in light of particular doctrinal and aesthetic concerns. It is a corpus that reveals itself to be far more malleable and supple than past readers have admitted. With an extensive index of musical and textual editions of dozens of songs, *Marian Devotion in Thirteenth Century French Lyric* brings a heretofore neglected genre to light. **History of woman suffrage**

Essays on women and devotional literature in the Middle Ages in commemoration and celebration of the respected feminist scholar Catherine Innes Parker. Silence was a much lauded concept in the Middle Ages, particularly in the context of religious literature directed at women. Based on the Pauline prescription that women should neither preach nor teach and should at all times keep speech to a minimum, the concept of silence lay at the forefront of many devotional texts, particularly those associated with various forms of women's religious enclosure. Following the example of the Virgin Mary, religious women were exhorted to speak seldom and then only seriously and devoutly. However, as this volume shows, such gendered exhortations to silence were often more rhetorical than literal. The contributions range widely; they consider the English *Wooing Group* texts and female-authored visionary writings from the Saxon nunnery of Hælfra in the thirteenth century, works by Richard Rolle and the Dutch mystic Jan van Ruusbroec in the fourteenth century, Anglo-French treatises and books housed in the library of the English noblewoman Cecily Neville in the fifteenth century, and the resonant poetics of women from non-Christian cultures. But all demonstrate the ways in which silence, rather than being a mere absence of speech, frequently comprised a form of gendered articulation and proto-feminist point of resistance. They thus

provide an apt commemoration and celebration of the deeply innovative work of Catherine Innes Parker 1956 2019 the respected feminist scholar and a pioneer of this important field of study *A Devotion to Purity* Sandra Soraya, 2024-07-25
