The Big Finish A Thorn Novel Thorn Series Book 14:

The New Boys of Summer Paul Hensler, 2017-10-06 The 1960s were among the most compelling years in the history of the United States from the intensifying clamor for civil rights to the tragic incidents of assassination and war Caught up in this sea of restlessness was major league baseball and the manner in which baseball addressed the challenges of this decade would have a lasting impact on the game In *The New Boys of Summer Baseball's Radical Transformation in the Late Sixties* Paul Hensler looks at the key issues confronting baseball during this tumultuous time Hensler carefully examines how domestic racial issues the war in Vietnam assassinations of prominent public figures youthful rebellion and drug use each placed their imprint on the game just as baseball was about to celebrate its centennial season The expansion of both the American and National leagues is also covered in depth as are the new divisional alignments and major rule changes that were implemented in 1969 Other factors impacting the national pastime include the appointment of Bowie Kuhn as commissioner the rising influence of Marvin Miller as the director of the players association the construction of modern stadiums and the rapid developments in information technology An earlier generation of players was venerated as the Boys of Summer and indeed they continue to hold their rightful place in baseball's legend and lore but in the late 1960s a fresh cast of characters made their own mark as transformations in the game brought baseball into the new modern era Baseball historians and fans alike will be entertained and informed by this fresh look at the national pastime in the decade of discontent

Thorns Robert Silverberg, 2014-04-01 *The Science Fiction Grand Master's Thorns* holds up chillingly well after all these decades A dark pastiche upon *Beauty and the Beast* SF Reviews In a world where humanity has colonized the solar system and begun to explore more of the local galaxy a vast audience follows real life stories presented by wealthy media mogul Duncan Chalk To satisfy his audience's voyeuristic needs and his own appetite for others' pain he pairs Minner Burris an emotionally withdrawn space explorer who was captured and freakishly surgically altered by aliens with Lona Kelvin a suicidal seventeen year old girl who donated eggs for a fertility experiment that produced one hundred babies none of whom she has been allowed to adopt or even see Chalk promises to solve their personal problems in return for a joint performance tour Though the love affair doesn't last Chalk keeps the couple on the hook by making new offers While Minner and Lona struggle to cope with their newfound celebrity and Chalk's broken promises they will uncover the true nature of their manipulator and risk everything to regain the humanity that has been stolen from them An early exploration of media exploitation and a deep look at freak show entertainment on a mass scale this novel was one of the earliest of Silverberg's mature masterworks Masterful This is a sophisticated novel beautifully written intelligent and insightful with wonderful dialogue and a satisfying conclusion Fantasy Literature Silverberg's brooding post utopian rumination has the makings of a great science fiction novel A worthwhile read which rambles along a dark path Well done Science Fiction Ruminations
