The City of God Aurelius Augustinus (santo),2012 Along with his Confessions The City of God is undoubtedly St Augustine s most influential work In the context of what begins as a lengthy critique of classic Roman religion and a defense of Christianity Augustine touches upon numerous topics including the role of grace the original state of humanity the possibility of waging a just war the ideal form of government and the nature of heaven and hell But his major concern is the difference between the City of God and the City of Man one built on love of God the other on love of self One cannot but be moved and impressed by the author s breadth of interest and penetrating intelligence Publisher s website [The Existence](#) Theodore Ihejieta,2018-12-21 The Existence By Theodore Ihejieta The Existence is a book of love and life that talks about the world as the existence of human beings and tells human beings to understand that the world is the love and the life It is a book of Planet Earth which the Planet Earth gave to the author because the author asked the Planet Earth for the book of the world The author is a human being who lost faith in God and called on Planet Earth to do work and save human beings from evil and death in the world This is a book of a human being who was challenged by evil and death in the world and the human being called on his existence for help and protection The author did not like to die in the world and told his existence that he did not want to die because the author believed that Planet Earth has the power to save human beings in the world The Existence is the faith the hope and the charity that God challenged human beings to find and tell the mountain of evil and death to move away from human beings **The City of God** St. Augustine of Hippo,2015 De Civitate Dei in English known
