The Carbon Diaries English Edition:

The Carbon Diaries 2017 Saci Lloyd, 2011-06-16 It's over a year since her last diary and Laura Brown is now in her first year of university in London a city still struggling to pull itself together in the new rationing era Laura's right in the heart of it her band the dirty angels are gigging all over town until a police crackdown on rioting students forces them out of the city After a brief exile on her parents' farm the angels set off in a battered VW bus on a tour of Europe with the fabulous Tiny Chainsaws in the Distance The tour soon unravels however in an increasingly dramatic sequence of events that include drought in Europe and Africa a tidal wave of desperate immigrants a water war in the Middle East and a city wide face off with the army in London Not to mention infidelity betrayal friendship love and massive courage How long can Laura distance herself from the struggle And more importantly how can she keep her style and hope alive in a world on the edge of madness

Understanding Public Debates Jens Martin Gurr, 2024-06-20 By historicizing and contextualizing them through readings of carefully selected literary texts literary studies can contribute to understanding and rationalizing key debates waged in many pluralist societies today whether on different conceptions of liberty identity politics historical commemoration challenges of globalization or responses to climate change *Understanding Public Debates* presents case studies including Milton's *Paradise Lost* P B Shelley's 1820 Reform essay Philip Roth's *The Human Stain* the songwriting of Neil Young and Edward Young's 1720s Sea Odes recent climate fiction as well as non literary conflict narratives Rather than mining texts for arguments for or against certain positions this book is interested in how texts stage these debates by means of multiple perspectives narrative situations or ambiguities By suggesting how educators might use literary texts as conversation starters for more rational debates the volume also contributes to Public Literary Studies Three important fields are here brought together 1 the study of societal debates and conflicts and the ways in which they challenge pluralist societies 2 explorations of the societal functions of literature and of non literary narratives and 3 discussions of the role and functions of literary studies The book ends with ten crisp theses on how literary studies can contribute to understanding and rationalizing such conflictive debates

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 *The Oxford History of the Novel in English* is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For

so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

The Carbon Diaries 2015 Saci Lloyd, 2011-06-16 It's January 1st 2015 and the UK is the first nation to introduce carbon dioxide rationing in a drastic bid to combat climate change As her family spirals out of control Laura Brown chronicles the first year of rationing with scathing abandon Will her mother become one with her inner wolf Will her sister give up her weekends in Ibiza Does her father love the pig more than her Can her band The Dirty Angels make it big And will Ravi Datta ever notice her In these dark days Laura deals with the issues that really matter love floods and pigs *The Carbon Diaries* 2015 is one girl's drastic bid to stay sane in a world unravelling at the seams
