The Promises and Pitfalls of Technology in Higher Education Norman Clark Capshaw, 2023-08-04 What will universities look like in 30 or 40 years time? This book looks at that future, examining the potential impact of technologies like artificial intelligence, virtual reality, smart buildings, drones, robots, and holograms in future universities. It is a story told in three acts. The first act takes the reader through a history of the modern university, highlighting major innovations that have transformed the academy since the founding of the University of Bologna in 1088. A second act builds on this history and transports the reader to the future, observing the application of these technologies in a future university from the point of view of professors, administrators, and students as we tour the transformed campus with them. The third act examines how these technologies might be adopted most effectively through the combined effort of university leaders, administrators, faculty, and students.

College Admissions Trade Secrets Andrew Allen, 2001 True or False: Princeton's Director of Admissions hacked into Yale's secured admissions website to find out who Yale had accepted and rejected. Boston College's average SAT score is up to 1370 and Boston University's average SAT score is up to 1320. Carnegie Mellon offers spots on a priority wait list to students who send in cash, and most of these students get admitted. Well, it's all true. An FBI investigation traced Yale's hacked website back to the computer of Princeton's Director of Admissions, Stephen LeMenager. Boston College's average SAT score is the same as Cornell's and close to Penn's, both of which Carnegie Mellon does have a priority wait list; it costs 400 to be on it, and the admissions rate is 95%. Welcome to the circus.

Dazed and Confused: Students see the college list published by their high school's guidance department, listing every acceptance and rejection from the prior year. Next to each entry is a GPA, a SAT score, and the number of AP classes taken. The list is usually ordered from highest to lowest GPA. The first entry: 4.19 unweighted, 1430 SAT, 7 AP classes. Princeton rejected, Yale rejected, Harvard rejected, Stanford rejected, Columbia rejected, Vassar accepted. Ouch. Scan down the list looking for Yale. Did anyone get into Yale last year? Down at the ninth entry: 3.93, 1450 SAT, 6 AP classes. Brown accepted, Yale accepted, Georgetown accepted. Okay, anyone else? Scan down to the twenty-second entry: 3.88, 1560 SAT, 7 AP classes. Yale accepted, Duke accepted, William and Mary rejected. This doesn't make any sense, thinks the student. Many of the students with the best grades didn't get into any top colleges, and still others were rejected at colleges ranked lower than the colleges to which they were accepted.
