The Brain Gloopers English Edition:

   The Big Book of Bible Bloopers J. Stephen Lang,2007 In this sequel to The Complete Book of Bible Trivia Lang takes readers on a tour of church history and offers a lighthearted look at the often humorous ways people have misquoted misconceived and misunderstood the world s bestselling book   **Brilliant Bloopers** Plammoottil V. Cherian Ph.D,2025-09-10 Brilliant Bloopers Vol I and II are sequel to the first book Origins of the Universe Life and Species New Perspectives from Science and Theology In this absorbing book Dr Cherian explains the numerous anatomical and paleontological blunders evolutionists provide as evidence some of which are fraud and others illogical and unscientific The Creator equipped every organism with what it needs for sustenance survival and their role in the ecosphere In Brilliant Bloopers the author discusses the many blunders of the theory of evolution that has become the core biological curriculum against the eternal truth that God created the universe and everything within it in a systematic order Author stresses the fact that if it took ten to 100 million years for a new species to emerge by chance mutation we would have only few species in nature and planet earth would have been a heap of dirt With a wealth of knowledge in Life Science and Theology and fifty years of research and teaching in varied subjects Dr Cherian explains The systematic order of creation schemed as evolutionary steps The hoax of homologous structures and the fraudulent claim of Archaeopteryx and Piltdown Man provided as evidence of missing links The comparison of anatomical structures as blunders as God designed every creature for its survival and ecological functions DNA is God s imprint on every species That the human body is fearfully and wonderfully knitted together and God amazingly organized the coordinated physiology that sustains life that evolution could never do The ecological principle of food chain is God s way of feeding all creatures and recycling of energy and matter according to thermodynamics How evolution theory has shattered the faith of millions For the first time ever in science or theology Dr Cherian explains the molecular biology of Jesus conception and his blood He dispels the theory of evolution and eveals the unknown God as a KNOWN God Scientists who go about teaching that Evolution is a fact of life are great con men and the story they are telling may be the greatest hoax ever In explaining evolution we do not have one iota of fact Dr T N Tahmisian a former U S Atomic Energy Commission physiologist Today our duty is to destroy the myth of evolution considered as a simple understood and explained phenomenon which keeps rapidly unfolding before us The deceit is sometimes unconscious but not always since some people owing to their sectarianism purposely overlook reality and refuse to acknowledge the inadequacies and falsity of their beliefs Pierre Paul Grasse past President French Academie des Science Evolution of Living Organisms Academic Press New York 1977 p 8 Any suppression which undermines and destroys that very foundation on which scientific methodology and research was erected evolutionist or otherwise cannot and must not be allowed to flourish It is a confrontation between scientific objectivity and ingrained prejudice between logic and emotion between fact and fiction In the final analysis objective scientific logic has to prevail no matter what the final result is no matter how many time

honoured idols have to be discarded in the process After all it is not the duty of science to defend the theory of evolution and stick by it to the bitter end no matter what illogical and unsupported conclusions it offers If in the process of impartial scientific logic they find that creation by outside intelligence is the solution to our quandary then Let s cut the umbilical cord that ties us down to Darwin for such a long time It is choking us and holding us back Every single concept advanced by the theory of evolution and amended thereafter is imaginary as it is not supported by the scientifically established probability concepts Darwin was wrong The theory of evolution may be the worst mistake made in science I L Cohen Darwin Was Wrong A Study in Probabilities PO Box 231 Greenvale New York 11548 New Research Publications Inc pp 6 8 209 210 214 215 I L Cohen Member of the New York Academy of Sciences and Officer of the Archaeological Institute of America   *Gender and Our Brains* Gina Rippon,2020-07-07 A breakthrough work in neuroscience and an incisive corrective to a long history of damaging pseudoscience that finally debunks the myth that there is a hardwired distinction between male and female brains We live in a gendered world where we are ceaselessly bombarded by messages about sex and gender On a daily basis we face deeply ingrained beliefs that sex determines our skills and preferences from toys and colors to career choice and salaries But what does this constant gendering mean for our thoughts decisions and behavior And what does it mean for our brains Drawing on her work as a professor of cognitive neuroimaging Gina Rippon unpacks the stereotypes that surround us from our earliest moments and shows how these messages mold our ideas of ourselved and even shape our brains By exploring new cutting edge neuroscience Rippon urges us to move beyond a binary view of the brain and to see instead this complex organ as highly individualized profoundly adaptable and full of unbounded potential Rigorous timely and liberating Gender and Our Brains has huge implications for women and men for parents and children and for how we identify ourselves
