*White-jacket* Herman Melville,1970 Herman Melville wrote *White Jacket* or *The World in a Man of War* during two months of intense work in the summer of 1849 He drew upon his memories of naval life having spent fourteen months as an ordinary seaman aboard a frigate as it sailed the Pacific and made the homeward voyage around Cape Horn Already that same summer Melville had written *Redburn* and he regarded the books as two jobs which I have done for money being forced to it as other men are to sawing wood The reviewers were not as hard on *White Jacket* as Melville himself was The English liked its praise of British seamen The Americans were more interested in Melville's attack on naval abuses particularly flogging and his advocacy of humanitarian causes Soon Melville was acclaimed the best sea writer of the day Part autobiography part epic fiction *White Jacket* remains a brilliantly imaginative social novel by one of the great writers of the sea This text of the novel is an Approved Text of the Center for Editions of American Authors Modern Language Association of America     **The Business World** ,1906     **A Complete Edition of the Poets of Great Britain** ,1795     **Academy, with which are Incorporated Literature and the English Review** ,1891     **The Reference Catalogue of Current Literature** ,1921     **The Business Philosopher** ,1918     **An Economy of Strangers** Avinoam Yuval-Naeh,2024-01-09

One of the most persistent powerful and dangerous notions in the history of the Jews in the diaspora is the prodigious talent attributed to them in all things economic From the medieval Jewish usurer through the early modern port Jew and court Jew to the grand financier of the nineteenth and twentieth centuries and contemporary investors Jews loom large in the economic imagination For capitalists and Marxists libertarians and radical reformers Jews are intertwined with the economy This association has become so natural that we often overlook the history behind the making and remaking of the complex cluster of perceptions about Jews and economy which emerged within different historical contexts to meet a variety of personal and societal anxieties and needs In *An Economy of Strangers* Avinoam Yuval Naeh historicizes this association by focusing on one specific time and place the financial revolution that England underwent from the late seventeenth century that coincided with the reestablishment of the Jewish population there for the first time in almost four hundred years European Christian societies had to that point shunned finance and constructed a normative system to avoid it relying on the figure of the Jew as a foil But as the economy modernized in the seventeenth century finance became the hinge of national power Finance's rise in England provoked intense national debates Could financial economy based on lending money on interest be accommodated

within Christian state and society when it had previously been understood as a Jewish practice By projecting the modern economy and the Jewish community onto each other the Christian majority imbued them with interrelated meanings This braiding together of parallel developments Yuval Naeh argues reveals in a meaningful way how the contemporary and wide ranging association of Jews with the modern economy could be created *The American and English Encyclopaedia of Law* David Shephard Garland, Lucius Polk McGehee, James Cockcroft, 1897 *All the Year Round*, 1864 *The Business of Emotions in Modern History* Mandy L.
