Ellison, **Liminal Fiction at the Edge of the Millennium** Jessica A. Folkart, 2014-10-08 Liminal Fiction at the Edge of the Millennium The Ends of Spanish Identity investigates the predominant perception of liminality identity situated at a threshold neither one thing nor another but simultaneously both and neither caused by encounters with otherness while negotiating identity in contemporary Spain Examining how identity and alterity are parleyed through the cultural concerns of historical memory gender roles sex religion nationalism and immigration this study demonstrates how fictional representations of reality converge in a common structure wherein the end is not the end but rather an edge a liminal ground On the border between two identities the end

materializes as an ephemeral limit that delineates and differentiates yet also adjoins and approximates In exploring the ends of Spanish fiction both their structure and their intentionality Liminal Fiction maps the edge as a constitutive component of narrative and identity in texts by Najat El Hachmi Cristina Fern ndez Cubas Javier Mar as Rosa Montero and Manuel Rivas In their representation of identity on the edge these fictions enact and embody the liminal not as simply a transitional and transient mode but as the structuring principle of identification in contemporary Spain

The Post-Apocalyptic Novel in the Twenty-First Century H.

Hicks,2016-04-08 Since the beginning of the twenty first century major Anglophone authors have flocked to a literary form once considered lowbrow genre fiction the post apocalyptic novel Calling on her broad knowledge of the history of apocalyptic literature Hicks examines the most influential post apocalyptic novels written since the beginning of the new millennium including works by Margaret Atwood David Mitchell Cormac McCarthy Jeanette Winterson Colson Whitehead and Paolo Bacigalupi Situating her careful readings in relationship to the scholarship of a wide range of historians theorists and literary critics she argues that these texts use the post apocalyptic form to reevaluate modernity in the context of the new century s political economic and ecological challenges In the immediate wake of disaster the characters in these novels desperately scavenge the scraps of the modern world But what happens to modernity beyond these first moments of salvage In a period when postmodernism no longer defines cultural production Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself The Literature of the United States of America Marshall Walker,1988-09-15 American literature over the last four hundred years has developed distinctive qualities and traditions partly engendered by the land itself The rich variety of literature flourished as the land was colonised and cultivated In this new edition Marshall Walker has updated his wide ranging study of American literature by giving greater attention to poets from Hart Crane and e e Cummings to John Ashbery and A R Ammons and to novelists from William Burroughs and Kurt Vonnegut to John Irving More space is given to drama from the later works of Tennessee Williams and Arthur Miller to the plays of Sam Shepard and David Mamet The special concerns of Black Jewish and Women writers are explored as this book demonstrates that American literary history can no longer be considered largely in terms of regional dominances *How Novels Think* Nancy Armstrong,2006-01-11 Nancy Armstrong argues that the history of the novel and the history of the modern individual are quite literally one and the same She suggests that certain works of fiction created a subject one displaying wit will or energy capable of shifting the social order to grant the exceptional person a place commensurate with his or her individual worth Once the novel had created this figure readers understood themselves in terms of a narrative that produced a self governing subject In the decades following the revolutions in British North America and France the major novelists distinguished themselves as authors by questioning the fantasy of a self made individual To show how novels by Defoe Austen Scott Bront Dickens Eliot Hardy Haggard and Stoker participated in the process of making updating and perpetuating the figure of the individual Armstrong puts them in dialogue with the writings of Locke Hume Rousseau Malthus Darwin Kant and Freud Such theorists as Althusser Balibar Foucault and Deleuze help her make the point that the individual was not one but several different figures The delineation and potential of the modern subject depended as much upon what it had to incorporate as what alternatives it had to keep at bay to address the conflicts raging in and around the British novel Twentieth-Century and Contemporary American Literature in Context Linda De Roche,2021-06-04 This

Choice in Charles Dickens's Later Novels Keith Easley, 2023-06-19 We read the book and the book is reading us In his later novels Charles Dickens uses the interaction between characters and their audiences within the fiction to dramatise his growing understanding of the pivotal role of spectatorship and choice in a more democratic society Egotists of all stripes intent on bending the world to their singular will would appropriate the power of spectatorship by taking command of the detachment necessary for choice Dickens's pluralistic art of sameness and difference redefines that detachment and liberates choice both inside and outside the novels for the relationship between characters and their audiences within the narratives actually inscribes our own relationship with them in the performance of reading a reflective doubling of the fiction upon the reader across time with moral consequences for our spectatorship of our own lives

Murder Made in Italy Ellen Nerenberg, 2021-12-22 A study of three high profile Italian murder cases how they were covered by the media and what it all says about Italian culture Looking at media coverage of three very prominent murder cases *Murder Made in Italy* explores the cultural issues raised by the murders and how they reflect developments in Italian civil society over the past twenty years Providing detailed descriptions of each murder investigation and court case Ellen Nerenberg addresses the perception of lawlessness in Italy the country's geography of crime and the generalized fear for public safety among the Italian population Nerenberg examines the fictional and nonfictional representations of these crimes through the lenses of moral panic media spectacle true crime writing and the abject body The worldwide publicity given the recent case of Amanda Knox the American student tried for murder in a Perugia court once more drew attention to crime and punishment in Italy and is the subject of the epilogue A fantastic array of literary cinematic and oral narratives Stefania Lucamante Catholic University of America Original engaging and thought provoking quite unlike any other existing book in Italian cultural and media studies Ruth Glynn University of Bristol
