American Polar Bears in Russia William Thomas Venner, 2023-01-25 At the end of World War I the U S Army 339th Infantry nicknamed the Polar Bears was deployed to northern Russia to prevent Allied supplies stockpiled near the port city of Archangel from falling into the hands of the Bolsheviks Drawing on firsthand accounts from men in the regiment their 18 month campaign is narrated from the point of view of the riflemen NCOs and officers of companies I and M Each chapter highlights an individual soldier s experience fighting the Red Army and the Arctic winter a quarter century before the Cold War The Athenaeum ,1906 Sex and Desire in Muslim Cultures Aymon Kreil, Lucia Sorbera, Serena Tolino, 2020-12-10 What have different ideas about sex and gender meant for people throughout the history of the Middle East and North Africa This book traces sex and desire in Muslim cultures through a collection of chapters that span the 9th to 21st centuries Looking at spaces and periods where sexual norms and the categories underpinning them emerge out of multiple subjectivities the book shows how people constantly negotiate the formulation of norms their boundaries and their subversion It demonstrates that the cultural and political meanings of sexualities in Muslim cultures as elsewhere emerge from very specific social and historical contexts The first part of the book examines how people constructed discussed and challenged sexual norms from the Abbasid to the Ottoman period The second part looks at literary and cinematic Arab cultural production as a site for the construction and transgression of gender norms The third part builds on feminist historiography and social anthropology to question simplistic dichotomies and binaries Each of the contributions shows how understanding of sexualities and the subjectivities that evolve from them are rooted in the mutually constitutive relationships between gender and political power In identifying the plurality of discourses on desires the book goes beyond the dichotomy of norm and transgression to glimpse what different sexual norms have meant at different times across the Middle East

pathways and nutritional requirements for normal and malignant cells are the same resulting in the fact that no chemotherapeutic agent can successfully inhibit a function in the majority of malignant cells without adversely affecting a similar function in the normal cell. It was therefore naive to expect a magic bullet which would select the malignant cell and destroy it. *The Saturday Evening Post*, 1924. *Catalog of Copyright Entries* Library of Congress. Will his plan to destroy America float like a fly or sink like a lead dumpling? Star-crossed lovers, conniving academics and blustery social climbers collide with ravenous termites international do-badders and multi-level marketing in a plot as fast-paced and hilarious as a runaway mountain bus.
