nine specialist contributors explore in a wide ranging set of cases the place of legalism in the workings of social life The essays make obvious the need to question our parochial common sense where ideals of moral order at other times and places differ from those of modern North Atlantic governance State centred law for instance is far from a central case Legalism may be aspirational connecting people to wider visions of morality duty may be as prominent a theme as rights and rulers from thirteenth century England to sixteenth century Burma appropriate as much they impose a vision of justice as consistency The use of explicit categories and rules does not reduce to simple questions of power The cases explored range from ancient Asia Minor to classical India and from medieval England and France to Saharan oases and southern Arabia In each case they assume no knowledge of the society or legal system discussed The volume will appeal not only to historians and anthropologists with an interest in law but to students of law engaged in legal theory for the light it sheds on the strengths and limitations of abstract legal philosophy Board of Trade Journal ,1937 *Lemon-Aid New and Used Cars and Trucks 1990-2015* Phil Edmonston,2013-11-18 Lemon Aid New and Used Cars and Trucks 1990 2015 steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car and truck book on the market Dr Phil Canada s best known automotive expert for more than 42 years pulls no punches **Car Suspension** Julian Spender,2019-11-25 This book provides an easy to follow practical guide to the maintenance repair and modification of the different types of suspension used in cars With over 170 illustrations including colour photographs and diagrams this practical book explains what suspension is and why it is needed it reviews the different types of suspension of available it covers the key maintenance and repairs that an owner can undertake and finally describes modifications in detail with step by step photographs **American Machinist** ,1927
