Snowmobile: Bombardier's Dream Machine Jules Older, 2012-02-01 In 1922 when Joseph Armand Bombardier was fifteen years old he built his first snow vehicle He had always loved to tinker with motors and make things go and he dreamed of building a vehicle that could go over snow His first attempt using a Model T Ford engine and a wooden propeller worked well To Joseph Armand's mind anyhow Not so much his father who made him take the contraption apart Over the years Joseph Armand dreamed of becoming a great mechanic and inventing machines But when his young son died of a fever because it was impossible to get to the hospital over the snow covered roads Joseph Armand applied his single minded determination to building a vehicle that could go over snow It took years but he accomplished his goal His invention changed the way people in snow country lived Inaccessible roads could now be travelled taking patients to hospitals doctors and priests to the needy children to school and even mail to residents
