Bob Moore, Henk van Nierop, 2006-12-26 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society Sounds English Nabeel Zuberi, 2001 Zuberi looks at how the sounds images and lyrics of English popular music generate and critique ideas of national belonging recasting the social and even the physical landscapes of cities like Manchester and London The Smiths and Morrissey play on romanticized notions of the white English working class while the Pet Shop Boys map a queer urban Britain in the AIDS era The techno culture of raves and dance clubs incorporates both an anti institutional do it yourself politics and emergent leisure practices while the potent mix of technology and creativity in British black music includes local conditions as well as a sense of global diaspora British Asian musicians drawing on Afrodiasporic and South Asian traditions seek a sense of place in Britain as commercial interests try to pin down an image of them to market Sounds English shows how popular music complicates cherished notions of Englishness as it activates cultural outsiders and taps into a sense of not belonging BOOK JACKET **International interdisciplinary conference**

they may know nothing about the possible scenarios goals and intentions of this environment Even the most attractive and mysteriously formulated idea for example attaining Nirvana remains something inconceivable for what is Nirvana and how to understand that this state has been achieved is unknown The idea has no explanations no criteria and no parameters And yet this does not stop people from pursuing ideas as such Many voluntarily strive for something they know practically nothing about Why are subcultures so attractive Why have they become magnets to researchers professionals and business persons among all others These and many other questions require innovative approaches and an unbiased dialogue in an understandable scientific language The International interdisciplinary conference Sketch a subculture united leading experts scientists researchers practitioners journalists photographers and thinkers for this discussion on 6 different online panels where the following questions were discussed 1 Problems of choosing a research path in studying a subculture 2 Plan of researching a subculture from the idea to the completion of the research from mythological and religious to scientific and philosophical worldviews 3 From mythologemes to ideas as foundational elements of subculture formation Approaches for researching mythologemes that underlie the philosophy of a subculture 4 Approaches for studying the hierarchy of subcultures Can we claim that the hierarchical structure of all subcultures is identical 5 Ways to explore the attributes and symbols of subcultures 6 The phenomenon of Subculture in Subculture and characteristics of its study The synthesis of ideas in the subculture reasons for the existence of subcultures invisible internal mechanisms that maintain their continuance 7 Frederick Lawrence s drawing as the purpose of subculture research 8 Can we consider a subculture as a machine that shapes a personality The idea of death and different ways of implementing this idea by subcultures in daily life 9 Frederick Lawrence s drawing the theory of subculture formation application of prototype method to understand phenomena 10 Is it true that one idea forms a whole subculture The pathway in subculture fatal and successful 11 The difference between subculture and religion What are specific elements that shape each institution 12 Use of religion by other social institutions business politics etc for their own purposes Religion transformation from divine transcendence to the universal society based on techno ideological principles

Between Marx and Coca-Cola Axel Schildt, Detlef Siegfried, 2006-12-01 In the 1960s and 1970s Western Europe s Golden Age Eric Hobsbawm a new youth consciousness emerged which gave this period its distinctive character Offering rich and new material this volume moves beyond the easy conflation of youth culture and Americanization and instead sets out to show for the first time how international developments fused with national traditions to produce specific youth cultures that became the leading trendsetters of emergent post industrial Western societies It presents a multi faceted portrait of European youth cultures colored by differences in gender class and education and points out the tension between emerging consumerism and growing politicisation succinctly expressed by Jean Luc Godard in his 1967 pairing of Marx and Coca Cola
