Intersections of Religion and Astronomy Chris Corbally, Darryl Dinell, Aaron Ricker, 2020-11-01 This volume examines the way in which cultural ideas about the heavens shape religious ideas and are shaped by them in return. Our approaches to cosmology have a profound effect on the way in which we each deal with religious questions and participate in the imaginative work of public and private world building. Employing an interdisciplinary team of international scholars, each chapter shows how religion and cosmology interrelate and matter for real people. Historical and contemporary case studies are included to demonstrate the lived reality of a variety of faith traditions and their interactions with the cosmos. This breadth of scope allows readers to get a unique overview of how religion, science, and our view of space have and will continue to impact our worldviews. Offering a comprehensive exploration of humanity and its relationship with cosmology, this book will be an important reference for scholars of Religion and Science, Religion and Culture, Interreligious Dialogue, and Theology, as well as those interested in Science and Culture and Public Education.

Mysterious Beauty Dr. C.S. Matthews, 2019-09-25 *Mysterious Beauty: Living with the Paranormal in the Hudson Valley* begins by providing a brief but thorough survey of the unique natural and cultural history of paranormal experience in the Hudson Valley region, including Native and early colonial reports. It then profiles select individuals whose lives have been touched by the paranormal, either as experiencers, investigators, or both. This isn't a book for tourists or a field guide, but rather a detailed survey of individuals who, by virtue of their history and place, have become accustomed to living with extraordinary experiences and/or encounters with the paranormal. From ghosts to aliens, Bigfoot to ancient ceremonial sites, time displacements, and spiritual visions, the testimony of witnesses and investigators speaks of mysteries encountered in the legendary, wondrous, beautiful landscapes of the Hudson Valley in New York.

[More Encounters with Star People](#) Ardy Sixkiller Clarke, 2016-07-25 *Authentic Stories of Alien Contact with Urban American Indians* Following on her bestselling book *Encounters with Star People*, which told the stories of those living on the reservation, Ardy Sixkiller Clarke's new book details the UFO stories of American Indians who live off the reservation. One intriguing difference between the two groups: there were more cases of physical evidence presented to back up the testimony of urban American Indians. As with her first book, this volume not only recounts their encounters but the recounting itself becomes part of the story. A professor emerita at Montana State University, the author reveals herself as part UFO investigator, part journalist, part therapist, and part friend. The result is a work of great authenticity.
