Joseph Sirgy, 2013-03-09 The purpose of this book is to make an effort to bring together a body of research on the subjective aspects of quality of life subjective well being happiness life satisfaction perceived quality of life by starting out with Wilson's 1968 theory of avowed happiness I build on Wilson's theory by applying diverse but selected findings from the ever burgeoning quality of life literature Wilson's theory of happiness can be captured by two key postulates These were summarised by Diener Suh Lucas and Smith 1999 They stated that fulfilment of needs causes happiness whereas the persistence of unfulfilled needs causes unhappiness The degree of need fulfilment required to produce satisfaction depends on the adaptation level of the needs which is influenced by past experience comparisons with others personal values among others Well the literature on the

subjective aspects of quality of life has grown by leaps and bounds since 1967 Diener 1984 and Diener et al 1999 did a great job reviewing a small part of this voluminous and growing literature But the literature remains quite fragmented It needs synthesis and integration Furthermore the literature needs to answer the so what question I make an attempt in this book to pull the literature together I do so by providing a common theoretical language that serves to establish a nomological network

The Rich and the Pure Daniel Caner, 2021-09-07 As the Roman Empire broke down in western Europe its stability and prosperity moved decisively to the east producing history's first truly affluent multi faceted Christian society in what is now known as the Byzantine Empire What united the twenty four million people living in this vast realm Roman citizens all but as diverse as the landscape itself was a shared conviction in the Christian ideal of philanthropy In this sweeping cultural and social history of Christian philanthropy Daniel Caner shows this practice involved more than simply a love of humanity it required living up to Jesus's injunction to Give to all who ask of you by offering mercy and material aid to every human being whatever their origin or status Yet this commitment to the common good arose in an aristocratic society marked by sharp gradations of rank and privilege and dominated by an official church experiencing explosive growth and unprecedented affluence In tracking the evolution of distinctive ideals and modes of Christian giving over three centuries Caner brings to the fore the people of Byzantium from the countryside to the lower levels of urban society to the elites and the complex hierarchical relationships that these gifts fostered among them Drawing on an immense range of evidence **The Rich and the Pure** offers nothing less than a portrait of the whole of early Byzantine society
