

The background of the cover is a stylized illustration. It depicts a river or stream flowing through a dense, tropical-looking forest. The water is rendered with wavy lines in shades of blue and green. A small boat with a canopy is on the river, with several figures inside. The banks are lined with thick, dark foliage and trees, some with large leaves. The overall color palette is dominated by greens, blues, and browns, with a sepia or aged tone. The title is set within a rectangular frame at the top, and the author's name is in a similar frame at the bottom.

Duvall,2019-05-09 After arriving from South Asia approximately a thousand years ago cannabis quickly spread throughout the African continent European accounts of cannabis in Africa often fictionalized and reliant upon racial stereotypes shaped widespread myths about the plant and were used to depict the continent as a cultural backwater and Africans as predisposed to drug use These myths continue to influence contemporary thinking about cannabis In The African Roots of Marijuana Chris S Duvall corrects common misconceptions while providing an authoritative history of cannabis as it flowed into throughout and out of Africa Duvall shows how preexisting smoking cultures in Africa transformed the plant into a fast acting and easily dosed drug and how it later became linked with global capitalism and the slave trade People often used cannabis to cope with oppressive working conditions under colonialism as a recreational drug and in religious and political movements This expansive look at Africa s importance to the development of human knowledge about marijuana will challenge everything readers thought they knew about one of the world s most ubiquitous plants *Mimi and Toutou's Big Adventure* Giles Foden,2010-03-10 When

Miola, 2004-06-10 This

book studies Shakespeare's changing vision of Rome in the six works where the city serves as a setting. Unlike other scholars, the treatment of the subject by Dr Miola offers a coherent analysis of all the major appearances of Rome in the Shakespeare canon. Shakespeare's recurrent and varied treatment of Rome suggests that a close examination of the city's transformations can teach us much about his development as a playwright and the development of his dramatic vision. The book focuses on Shakespeare's changing conception of the Roman city, its people, and its ideals. Dr Miola examines the symbolic and topographical features that help define the city.

African Settings in Contemporary American Novels
Dave Kuhne, 1999-05-30. Africa has long captured the Western imagination as a land shrouded in danger and mystery. British and American novels written before World War II established popular conventions and stereotypes about Africa that have been increasingly challenged by contemporary American novels set in Africa. Kuhne's book overviews the ways in which Africa has been employed as a powerful setting for American novels written since World War II. Kuhne argues that contemporary American novels with African settings are largely didactic; that these novels convey specific lessons about Africa and Africans; and that they compare African and American cultures in order to evaluate and critique the two worlds. The book begins by summarizing the conventions and themes Westerners have traditionally associated with Africa, and by detailing how British and American authors from Aphra Behn to Ernest Hemingway depicted Africa before World War II. It then looks at contemporary American novels set in invented African nations, novels that typically suggest that the problems that trouble actual African nations are the result of colonialism. A separate chapter then examines the African novels of African Americans, which generally aim to correct the historical record, refute stereotypes, and detail the horrors of the slave trade. The volume also looks at genre fiction set in Africa, while a final chapter discusses postcolonial novels with African settings.

Theaters of Translation Andrew S. Keener,2025 In Theaters of Translation Cosmopolitan Vernaculars in Shakespeare s England Andrew S Keener argues that plays by Thomas Kyd Mary Sidney Herbert Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries grammars and language learning dialogues Bringing together critical discussions and methodologies in transnational literary studies book history and the history of theater and performance Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos Rather than accepting Shakespeare as England s national playwright and instead of inscribing the period s theater and drama within England s political geographic and linguistic limits Theaters of Translation demonstrates the intercourse between England s drama and the great variety of multilingual dictionaries dialogues grammars and language manuals circulating throughout Europe Covering the period 1570 1640 when England s drama and crucially the English language itself was a proving ground for linguistic mixture Keener emphasizes the term cosmopolitan vernaculars which refers to non classical languages that modeled transnational forms of

belonging for playgoers readers and authors across early modern Europe in doing so he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion The critical genealogy of the term cosmopolitan vernaculars is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire so by acknowledging the complexities associated with the terms cosmopolitanism and vernacularity Keener offers a conceptual and historical bridge between the medieval period and the imperial era making room for linguistic considerations of cosmopolitanism in England among French Italian Spanish and other European languages in relation to the English theater Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture particularly studies examining the dynamics of multiple languages translation and polyglot manuals and dictionaries in Europe *Theaters of Translation* highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage With this evidence Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays *Theaters of Translation* also seeks to make much more out of details known to scholars already such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino's scandalous Italian dialogues or that Shakespeare's *First Folio* was advertised for sale in Germany before its London publication but which have been overlooked or obscured because they do not always agree with the prevailing nationally focused approaches to early modern drama in England
