What if you knew about a weight loss program that would help you lose weight and feel younger? Would you try it? The alkaline diet and lifestyle has been around for over 60 years, yet many people aren't familiar with its natural, safe and proven weight loss properties!

The **alkaline diet** is not a gimmick or a fad. It's a healthy and easy way to enjoy new levels of health. In this post you'll learn about what this dietary plan is, what makes it different, and how it can produce life-changing results for you, your waistline and your health.

What's wrong with the way you're eating now?

The Standard American Diet (S.A.D.) focuses on refined carbohydrates, sugars, alcohol, meats and dairy. These foods are all highly acid-forming. Meanwhile, despite pleas from the nutritional experts, we simply don't eat enough of the alkalizing foods such as fresh fruits, veggies, nuts, and legumes.

In short, our S.A.D. lifestyle upsets the natural acid-alkaline balance our bodies need. This condition causes obesity, low-level aches and pains, colds and flu, **diabetes**, and eventually disease sets in.

An alkaline diet is unique.
