Kent McGuire,2009-11-01 The interplay between sociopolitical forces and economic agendas becomes apparent when one examines the June 28 2007 United States Supreme Court Decision *Parents Involved In Community Schools v Seattle School District* In a reversal of the 1954 *Brown* Decision the United States

Supreme Court ruled that public schools could not use race as a factor when assigning children to public schools Given demographic shifts globalization economic instability and ideological shifts the reversal was expected However it is essential that policymakers educators and other stakeholders consider the impact of attending segregated schools on the achievement gap that continues to exist between minority groups and European Americans attending resegregated neighborhood schools This book will focus on the test score gaps between African American and European American students The achievement gaps between these two groups will be analyzed will be presented and elaborated Additionally the authors will analyze how changes in school characteristics such as racial composition school composition school expenditures and socio economic level of neighborhoods affect achievement gap trends in the Norfolk School District An examination of the achievement gap trends in an urban school district will serve to better inform public policy and school reform efforts The specific goals of this book are to describe the achievement gap between minority African American students and European American students in the Norfolk school district and to present strategies utilized by urban districts to narrow the gap One unique feature of this book is that it provides a data driven research based analysis of the achievement gap between minority and European American students

Great Britain and the American Civil War Ephraim Douglass Adams,1925 Women and Gay Men in the Postwar Period John Portmann,2016-07-14

Friendships between women and gay men captivated the American media in the opening decade of the 21st century John Portmann places this curious phenomenon in its historical context examining the changing social attitudes towards gay men in the postwar period and how their relationships with women have been portrayed in the media As women and gay men both struggled toward social equality in the late 20th century some women understood that defending gay men who were often accused of effeminacy was in their best interest Joining forces carried both political and personal implications Straight women used their influence with men to prevent bullying and combat homophobia Beyond the bureaucratic fray women found themselves in transformed roles with respect to gay men as their mothers sisters daughters caregivers spouses voters employers and best friends In the midst of social hostility to gay men during the AIDS crisis of the 1980s and 1990s a significant number of gay women volunteered to comfort the afflicted and fight reigning sexual values Famous women such as Elizabeth Taylor and Barbra Streisand threw their support behind a detested minority while countless ordinary women did the same across America Portmann celebrates not only women who made the headlines but also those who did not Looking at the links between the women s liberation and gay rights movements and filled with concrete examples of personal and political relationships between straight women and gay men *Women and Gay Men in the Postwar Period* is an engaging and accessible study which will be of interest to students and scholars of 20th and 21st century social and gender history
