The Americans Reconstruction To 21st Century Chapter 18:

The Americans ,2003 Divergent Memories Gi-Wook Shin,Daniel Sneider,2016-09-07 No nation is free from the charge that it has a less than complete view of the past History is not simply about recording past events it is often contested negotiated and reshaped over time Debate over the history of World War II in Asia remains surprisingly intense and Divergent Memories examines the opinions of powerful individuals to pinpoint the sources of conflict from Japanese colonialism in Korea and atrocities in China to the American decision to use atomic weapons against Japan Rather than labeling others views as distorted or ignoring dissenting voices to create a monolithic historical account Gi Wook Shin and Daniel Sneider pursue a more fruitful approach analyzing how historical memory has developed been formulated and even been challenged in each country By identifying key factors responsible for these differences Divergent Memories provides the tools for readers to both approach their own national histories with reflection and to be more understanding of others

Anne Overbeck,2019-01-29 The structure of the African American family has been a recurring theme in American discourse on the African American community The role of African American mothers especially has been the cause of heated debates since the time of Reconstruction in the 19th century The discourse which often saw the African American family as something that needed fixing also put the issue of women s reproductive rights on the political agenda Taking a long term perspective from the 1920s to the early 1990s Anne Overbeck aims to show how normative notions of the American family influenced the perspective on the African American family especially African American women The book follows the negotiations on African American women s reproductive rights within the context of eugenics modernization theory overpopulation and the War on Drugs Thereby it sets out to trace both continuities and changes in the discourse on the reproductive rights of African American women that still influence our perspective on the African American family today **Black Males and Racism** Terence D. Fitzgerald,2015-10-23 Behind the twenty first century curtain of colorblind public sentiment lies an often ignored reality shared by many African American males racism continues to thrive and often drastically affects their lives Fitzgerald

draws on his extensive interviews of black males to reveal the experiences of racism that continue in public schools and in American higher education Using empirical data and the methods of sociological research Fitzgerald analyzes how the persistent effects of white supremacy in education have threatened the psychological and economic welfare of black males The effects often last well into adulthood Unraveling the subtle and overt mechanisms of institutional social control leads Fitzgerald to proposals to reduce structural racism and improve the lives of African American youth Legislative Calendar United States.
