Nunley, 2007 This study offers the first book length exploration of travel narratives by nineteenth century Spanish authors Focusing on texts produced during a crucial period in the development of Spain's modern consciousness at the close of its imperial age Scripted Geographies shows how writers strategies of travel representation reflected and participated in this process of cultural transformation The first two chapters devoted to travel within Europe explore constructions of Spain's sometimes problematic encounter with Western society and traditions The final chapters shift to orientalist travel allowing reflection on how Spanish renderings of the non Western other intersect with patterns found in the better known corpus of orientalist literature produced in then ascendant imperial

Almandoz,2014-10-10 In this book Arturo Almandoz places the major episodes of Latin America s twentieth and early twenty first century urban history within the changing relationship between industrialization and urbanization modernization and development This relationship began in the early twentieth century when industrialization and urbanization became significant in the region and ends at the beginning of the twenty first century when new tensions between liberal globalization and populist nationalism challenge development in the subcontinent much of which is still poverty stricken Latin America s twentieth century modernization and development are closely related to nineteenth century ideals of

progress and civilization and for this reason Almandoz opens with a brief review of that legacy for the different countries that are the focus of his book Mexico Chile Brazil Argentina and Venezuela but with references to others He then explores the regional distortions which resulted from the interaction between industrialization and urbanization and how the imbalance between urbanization and the productive system helps to explain why take off was not followed by the drive to maturity in Latin American countries He suggests that the close yet troublesome relationship with the United States the recurrence of dictatorships and autocratic regimes and Marxist influences in many domains are all factors that explain Latin America's stagnation and underdevelopment up to the so called lost decade of 1980s He shows how Latin America's fate changed in the late twentieth and early twenty first century when neoliberal programmes political compromise and constitutional reform dismantled the traditional model of the corporate state and centralized planning He reveals how economic growth and social improvements have been attained by politically left wing yet economically open market countries while others have resumed populism and state intervention All these trends make up the complex scenario for the new century especially when considered against the background of vibrant metropolises that are the main actors in the book

Poetry in Pieces Michelle Clayton, 2011-01-10 Set against the cultural and political backdrop of interwar Europe and the Americas *Poetry in Pieces* is the first major study of the Peruvian poet Cesar Vallejo 1892-1938 to appear in English in more than thirty years Vallejo lived and wrote in two distinct settings Peru and Paris which were continually crisscrossed by new developments in aesthetics politics and practices of everyday life Michelle Clayton combines close readings of Vallejo's writings with cultural historical and theoretical analysis connecting Vallejo and Latin American poetry to the broader panorama of international modernism and the avant garde and to writers and artists such as Rainer Maria Rilke James Joyce Georges Bataille and Charlie Chaplin *Poetry in Pieces* sheds new light on one of the key figures in twentieth century Latin American literature while exploring ways of rethinking the parameters of international lyric modernity

Las Raras Sarah Moody, 2024-05-30 Premio al Mejor Libro Latin American Studies Association Nineteenth Century Section 2025 *Las Raras* proposes that the Modernistas advocacy for a writing style they considered feminine helps us to understand why so few and perhaps no women were accepted as active participants in Modernismo Author Sarah Moody studies how particular writers contributed to the idea of a feminine aesthetic and tracks the intellectual networks of Modernismo through periodicals and personal papers such as albums and correspondence Buenos Aires Paris and Montevideo figure prominently in this transatlantic study which reexamines some of the most important period writers in Spanish including Rubén Darío Amado Nervo and Enrique Gómez Carrillo This book also considers the critiques launched by women writers such as Aurora Caceres Clorinda Matto de Turner and María Eugenia Vaz Ferreira who experienced Modernista exclusion firsthand deconstructed the Modernista discourse of a modern feminine style and built literary success in alternative terms These writers reoriented the discussion about women in modernity to address women's education professionalization and advocacy for social and civic improvements In this study

Modernismo emerges as both a literary style and an intellectual network in which style and sociability are mutually determining and combine to form a system of prestige and validation that excluded women writers **The Quinologist**, 1883 **Prince Zilah** Jules Claretie, 2018-09-20 Reproduction of the original Prince Zilah by Jules Claretie The Dinner at Gonfarone's Peter Hulme, 2019 The Dinner at Gonfarone's covers five years in the life of the Nicaraguan poet Salom n de la Selva but it also offers a picture of Hispanic New York in the years around the First World War De la Selva is the forerunner of Latino writers like Junot D az and Julia lvarez *A Companion to Early Cinema* André Gaudreault, Nicolas Dulac, Santiago Hidalgo, 2012-07-02 A COMPANION TO EARLY CINEMA This collection of essays by early cinema scholars from Europe and North America offers manifold perspectives on early cinema fiction which perfectly reflect the state of international research Martin Loiperdinger Universitaet Trier A fabulous selection of first rate articles Rick Altman University of Iowa One of the most challenging books in recent film studies in it early cinema is both a historical object and a contemporary presence As in a great novel we can retrace the adventures of the past the films styles discourses and receptions that made cinema the breakthrough reality it was in its first decades But we can also come to appreciate how much of this reality is still present in our digital world Francesco Casetti Yale University A Companion to Early Cinema is an authoritative reference on the field of early cinema Its 30 peer reviewed chapters offer cutting edge research and original perspectives on the major concerns in early cinema studies and take an ambitious look at ideas and themes that will lead discussions about early cinema into the future Including work by both established and up and coming scholars in early cinema film theory and film history this will be the definitive volume on early cinema history for years to come and a must have reference for all those working in the field
