Mastering the Art of War Liang Zhuge,Liu Ji,2005-08-09

Two master strategists delve into the essential principles of Sun Tzu's *The Art of War* revealing what they teach us about leadership success and more. Composed by two prominent statesmen/generals of classical China, this book develops the strategies of Sun Tzu's classic *The Art of War* into a complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully both materially and mentally and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, *Mastering the Art of War* presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between *The Art of War* and the oldest handbook of strategic living, the *I Ching* (Book of Changes).

The Art of the Project Johnnie Gratton, Michael Sheringham, 2005. The idea of the project crosses generic disciplinary and cultural frontiers. At a time when writers and artists are increasingly describing their practices as projects, remarkably little critical attention has been paid to the actual idea of the project. This collection of essays responds to an urgent need by suggesting a framework for evaluating the notion of the project in the light of various modernist and postmodernist cultural practices drawn mainly but not exclusively from the French-speaking domain. The overview offered by this volume promises to make an original and thought-provoking contribution to contemporary literary, artistic, and cultural criticism.

The first part of this book helps readers to identify the work that they really want to do, while the second provides practical, active steps to finding or creating that work. *Zen and the Art of Making a Living* goes beyond inspiration, providing a proven formula for bringing creativity, dignity, and meaning to every aspect of the work experience.

The Art of Anatheism Richard Kearney, Matthew Clemente, 2017-12-12. Theopoetics names the notion that the divine theos manifests itself as creative making (poiesis). Anatheism expresses the attendant claim that this making takes the form of a second creation, re-creation, or creation again, where humanity and divinity collaborate in the coming of the Kingdom. *The Art of Anatheism* brings together philosophers, theologians, and artists to open up the question of the relationship between artistic creation and the divine. The book asks the question: how can God happen again after the death of God? It answers it by proposing an art of anatheism which attends to the recreation and return of the divine through certain forms of literature, painting, liturgy, music, and performance. Engaging students, scholars, and interested readers across a wide range of disciplines: philosophy, theology,

aesthetics literary criticism poetics the volume includes contributions from both practising artists and professional academics As such it brings together examples from ancient religious wisdom traditions and cutting edge contemporary cultural practices to suggest that the sacred is often most potent and persuasive when recreating the everyday world of our secular experience
