Saunders, 2013-04-30 Kongjian Yu and his office Turenscape are beyond doubt the foremost landscape architecture practice in China today The vast scale of China and her apparently boundless growth have enabled Yu to test many ideas that are still largely theories in the Western world His work increasingly valued and appreciated in Europe and North America has attained an extremely high and elegant level in both conception and execution Kongjian Yu is known for his ecological stance often against the resistance of local authorities His guiding design principles are the appreciation of the ordinary and a deep embracing of nature even in its potentially destructive aspects such as floods Among his most acclaimed projects are Houtan Park for Shanghai Expo the Red Ribbon Park in Qinhuangdao and Shipyard Park in Zhongshan This book explores Yu's work in 11 essays by noted authors and documents 22 major projects extensively

Watts,2010-10-26 As a young child Jonathan Watts believed if everyone in China jumped at the same time the earth would be shaken off its axis annihilating mankind Now more than thirty years later as a correspondent for The Guardian in Beijing he has discovered it is not only foolish little boys who dread a planet shaking leap by the world s most populous nation When a Billion Chinese Jump is a road journey into the future of our species Traveling from the mountains of Tibet to the deserts of Inner Mongolia via the Silk Road tiger farms cancer villages weather modifying bases and eco cities Watts chronicles the environmental impact of economic growth with a series of gripping stories from the country on the front line of global development He talks to nomads and philosophers entrepreneurs and scientists rural farmers and urban consumers examining how individuals are trying to adapt to one of the most spectacular bursts of change in human history then poses a question that will affect all of our lives Can China find a new way forward or is this giant nation doomed to magnify the mistakes that have already taken humanity to the brink of disaster Instant Asia Joseph Grima,2008 A survey of emergent Asian architects from India to Japan including Philippines The Asian continent today acts as a theatre to some of the most rapid changes in the urban environment ever to occur anywhere in the world As cities and economies expand at an almost immeasurable pace Asian architects faces new challenges and opportunities Through interviews conversations and visits to architecture studios across the continent Instant Asia documents the most recent built projects of the emerging generation of designers shaping the architectural identity of Asia today *Histoire contemporaine des paysages, parcs et jardins* Jean-Pierre Le Dantec,Tangi Le Dantec,2019-11-27 L art des

jardins et des paysages accompagne au rythme des mutations profondes de la société la transformation de la France en un univers urbain mondialisé et confronté des crises dites notamment d'ordre environnemental. La confrontation historique entre les partisans d'une beauté libre et naturelle et ceux d'une expression fondée sur la rationalité technique et géométrique se constamment renouvelée au point d'en brouiller la pertinence. Elle s'efface d'ordinaire au profit de nouveaux enjeux liés à la définition du cadre de vie et aux exigences de survie des systèmes. Cet ouvrage présente l'histoire des jardins et du paysage en France aux époques moderne et contemporaine en s'appuyant sur une riche iconographie constituée de photographies, croquis et gravures. Il retrace leur évolution influencée par des courants artistiques majeurs : le néo-classicisme des XVIII^e et XIX^e siècles, les jardins d'Espagne et du Maroc avec Forestier, les jardins modernes cubistes ou art déco de Jacques Simon et le renouveau de l'art paysager etc. jusqu'aux développements contemporains qui en font des lieux d'expérimentation de formes artistiques nouvelles et de techniques horticoles écologiques comme la permaculture ou la phytoremédiation. Il démontre ainsi quel point l'art des jardins et paysages est un art capital qui tout en conservant sa vocation première de création de beauté partit des éléments naturels se met au service d'un dessein plus large visant la gestion, l'aménagement et la création des territoires.

Seis passos para a cidade humana IPCCIC – Instituto Paulista de Cidades Criativas e Identidades Culturais, 2019-05-24. Os integrantes do Instituto Paulista de Cidades Criativas e Identidades Culturais IPCCIC não aceitam o conceito de mais humana. Isso significaria conceber a possibilidade da existência de uma cidade que fosse menos humana. Para o grupo que trabalha junto desde 2013 o trajeto de pesquisa e estudo os levou de um lugar ao outro. No início a proposta era a de transformar as localidades em Cidades Criativas. Com o tempo e o resultado das escutas feitas em 22 cidades do interior do Estado de São Paulo os pesquisadores entenderam que a versão criativa de um lugar deve ser uma das características da Cidade Humana. Esse percurso está descrito no livro *Seis passos para a Cidade Humana* a ser lançado em abril pela Editora Esta das Letras e Cores de São Paulo. Na obra anterior *Tecnologia Social para gestão de cidades: cidadania e cocriação* publicado em 2016 o IPCCIC narra sua metodologia de trabalho para estudar as localidades. Nessa nova obra o grupo percorre pelos seis passos necessários para a transformação de uma cidade em Humana. No prefácio o antropólogo Michelangelo Giampaoli da Universidade de Illinois de Chicago alerta para a obviedade do conceito. Para ele todas as cidades deveriam ser humanas e aponta para a crueldade de assim não serem. O jornalista André Trigueiro por sua vez indaga na capa do livro e se o planejamento urbano levasse em conta as expectativas dos moradores e a possibilidade de eles serem elevados condições de cidadãos cocriadores. Então conclui que o livro ousado em sua proposta aponta caminhos para que o projeto coletivo das cidades não esvazie a mais nobre e urgente de todas as utopias: o ser humano precisa vir em primeiro lugar. Para a presidente do IPCCIC Lilian Rodrigues de Oliveira Rosa a publicação em livro da trilha que leva um gestor público à consolidação de uma Cidade Humana é uma devolutiva que o Instituto faz diante da oportunidade de se dedicar a pensar a gestão. Com esse material queremos propor um debate sobre importantes mudanças que precisam ocorrer, explica. Em síntese os seis passos estão

sistematicamente organizados de maneira que um serve de estrutura para o outro A trilha prop e de in cio que o ser humano seja colocado em primeiro lugar Na sequ ncia estabelece que o cidad o usu rio da cidade deva ser formado cocriador e assim segue que haja o sentido de comunidade que o ser humano seja religado ao meio ambiente que a Economia seja cocriadora pautada na colabora o no circuito curto no modelo circular e criativa e que se possa sempre educar em suas m ltiplas formas Como base o grupo defende o amor como atitude pedag gica Garten und Landschaft ,2007 **Survival Kit** ,1976*
