The Awakening Child Re Reading Kleist:

The Awakening Child Matthias Goertz, 2014-12-26 Compared with Kleist Goethe and Hegel are old men Gilles Deleuze notes about the three contemporary Dichter und Denker Heinrich von Kleist's novellas are more raw and immediate expressionistic and explosive than the more formal dramas he is best known for Often written in a state of frenzy in periods of great distress financial and emotional these incomparable novellas are in fact carefully constructed highly complex works of genius The present book attempts several experiments First it develops a set of simple analytical tools and deploys them in a hermeneutic reading rather an archaeology of the selected texts Second it correlates the affects and percepts produced in the literary texts with philosophical most prominently Nietzschean and Deleuzian concepts in order to expose meaning in or impose meaning on the characters affections and perceptions Third it juxtaposes Kleist's early 19th century novellas with an early 21st century novel *The Possibility of an Island* by another notorious literary outsider the novelist and poet Michel Houellebecq to show that what makes Kleist appear so modern are not so much the timelessness of his themes but the underlying Spinozan outlook on life he shares with Houellebecq life as pure immanence as material corporeal fluctuations of intensity as interplay of difference and repetition as auto poiesis Roll over Goethe Hegel here comes Kleist **Kleist and Hebbel** Henrietta Katherine Becker, 1904 *The Monthly Musical Record*, 1904 Includes music Freud and Oedipus Peter L.  Figures of Natality reads metaphors and narratives of birth in the age of Goethe 1770 1832 as indicators of the new the unexpected and the revolutionary Using Hannah Arendt's concept of natality Joseph O Neil argues that Lessing Goethe and Kleist see birth as challenging paradigms of Romanticism as well as of Enlightenment resisting the assimilation of the political to economics science or morality They choose instead to preserve the conflicts and tensions at the heart of social political and poetic revolutions In a historical reading these tensions evolve from the idea of revolution as Arendt reads it in British North America to the social and economic questions that shape the French Revolution culminating in a consideration of the culture of the modern republic as such Alongside this geopolitical evolution the ways of representing the political change too moving from the new as revolutionary eruption to economic metaphors of birth More pressing still is the question of revolutionary subjectivity and political agency and Lessing Goethe and Kleist have an answer that is remarkably close to that of Walter Benjamin as that secret index through which each past age is pointed toward redemption Figures of Natality uncovers this index at the heart of scenes and products of birth in the age of Goethe *Monthly Bulletin* ...
