Lee, 2013-12 This is the workbook of Volume 8 of the entire set of 12 volumes of word problems solving strategies If you want to set a solid foundation in math grasping the techniques on solving word problems is the key to it This set of books teaches you the techniques and strategies you need to solve word problems Sample question in this volume A lion can live up to 40 years and an elephant can live twice as long If a sea turtle can live 20 years more than twice as long as the elephant how many years can the sea turtle live up to Reasoning and solution Twice 2 groups of so we can use the 3 elements formulas to solve for one of the elements An elephant can live twice as long as a lion 40 years so the number of years that a lion can live to is the amount in 1 group the number of groups is 2 We multiply the number of groups 2 with the amount in each group 40 years to find the total amount in the groups or the number of years that the elephant can live up to $2 \times 40 = 80$ years A sea turtle can live up to 20 years more than twice as long as the elephant We need to first find the amount that is twice as much as the elephant s age The amount in 1 group is the age of the elephant the number of groups is 2 Twice

2 groups of so we can use the 3 elements formulas to solve for one of the elements We multiply the number of groups 2 with the amount in each group 80 to find total amount in the groups $2 \times 80 = 160$ years Secondly we need to find 20 years more than twice as long as the elephant 160 years or 20 years more than 160 years We add 20 to 160 to find the number of years that the sea turtle can live up to $160 + 20 = 180$ years The techniques and strategies on using the addition and subtraction reasoning and the 3 elements formulas to solve decimal word problems on using algebra to solve word problems and on finding the measures of internal angles in triangles are also covered in this volume There is more in the volume than what is mentioned Detailed explanations of the reasoning and solving strategies for each and every problem in Volume 8 are given in Volume 8 Answer Key Word Problems, 2002 *Word Problems* Helen Mason, 2013 Word Problems Mass and Volume uses an engaging narrative and authentic real world problems to teach readers strategies to solve one step word problems involving mass and volume The text models the problem solving process for readers and provides hands on opportunities for readers to apply their own problem solving skills Readers will discover that there is often more than one way to solve a problem *Math Word Problems in 15 Minutes a Day*, 2009 This volume provides a study guide for learning how to solve mathematical word problems **Word Problems-Detailed Explanations of Reasoning and Solving Strategies** Bill S.
