## About this manual

### Our aim

The aim of this manual is to help you get the best value from your vehicle. It can do this in several ways. It can help you decide what sort of use the car can stand, about the changes to get it done for it properly, provide information on routine maintenance and servicing, and give a regular course of action and diagnosis when serious faults occur. However, it is hoped that you will use the manual by looking for the work yourself. On simple jobs it may save the trouble that sending the car into a garage and paying more money, to have one called in. Further, most important, it can help you to be saved by avoiding the costs a garage visit charges to cover its labour and materials.

The manual has drawings and descriptions to show the location of the various components so that their names can be understood. Then the parts are described and photographed in order to show exactly as they are in a vehicle not in the work.
