World Night 2014 Library Briefing Pack:

Into the Void James D. Kiras, Martijn Kitzen, 2024-06-06 The moment in the sun for special operations sometimes appears to have passed seemingly eclipsed by preparations for potential conflict under the guise of great power competition combined with failure in Afghanistan Yet the war in Ukraine serves as a reminder that special operations play an even greater role today before during and presumably after conflict The challenge remains dealing with current irregular and hybrid threats at the same time as preparing for an uncertain future as threats and technologies evolve at a dizzying pace Focusing too much on the future of conventional warfare creates a void in national security discussions related to special operations This book seeks to fill that gap drawing on the expertise of scholars and practitioners in the field from the Indo Pacific Europe and the United States to answer what if anything special operations can or should seek to do and how The contributors explore such topics as proxies non state special forces capabilities innovation and transformation artificial intelligence and special operations in space and cyberspace These chapters are united by their analysis that special operations will have future strategic and operational value for allies and adversaries alike provided that difficult choices are made in the present
