Women at the Wheel Katherine J. Parkin, 2017-09-05 Ever since the Ford Model T became a vehicle for the masses the automobile has served as a symbol of masculinity The freedom of the open road the muscle car's horsepower the technical know how for tinkering all of these experiences have largely been understood from the perspective of the male driver Women in contrast were relegated to the passenger seat and have been the target of stereotypes that portray them as uninterested in automobiles and more perniciously as poor drivers In *Women at the Wheel* Katherine J. Parkin illuminates the social implications of these stereotypes and shows how they have little basis in historical reality With chapters on early driver's education and licensing programs and on buying driving and caring for cars she describes a rich cast of characters from Mary Landon the first woman ever to drive in 1899 to Dorothy Levitt author of the first automotive handbook for women in 1909 to Margie Seals who opened her garage My Favorite Mechanic Is a Woman in 1992 Although women drove and had responsibility for their family's car maintenance twentieth century popular

culture was replete with humorous comments and judgmental critiques that effectively denied women pride in their driving abilities and car related expertise Parkin contends that despite women's long history with cars these stereotypes persist

Women and Gender in International History Karen Garner, 2018-06-28 Most governments and global political organizations have been dominated by male leaders and structures that institutionalize male privilege As *Women and Gender in International History* reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries
