Using Vintage Books One of the books included in this course *Adventures in Missionary Heroism* was originally published in the early 1900s There is real value in reading vintage books like this one These historical texts not only provide us with information but also insight into the attitudes and perceptions of people from that time It is important to remember that vintage books can express attitudes and use terminology that is no longer considered appropriate When students come across these moments in vintage books it is the perfect opportunity for them to have a discussion with their teacher about this material Teachers and students can use this opportunity to analyze the differences in attitudes between now and then as well as to review Biblical principles regarding issues like racism These conversations will provide students a context for understanding the attitudes expressed in the text as well as help them develop their own skills of discernment and critical thinking when it comes to materials they are reading
