The Hero's Quest and the Cycles of Nature Rachel S. McCoppin, 2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature a botanical hero one might say who begins the quest in a metaphorical seed like state then sprouts into a period of verdant strength But the hero must face a mythic underworld where he or she contends with mortality and sacrifice embracing death as a part of life For centuries humans have sought superiority over nature yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature Instead a cyclical promise of continuous life is realized in which no element fully disappears and the hero's message is not to dwell on death

Lessons in Mythology Edmund P. Cueva, Deborah Beam Shelley, 2020-05-15 This volume offers eight approaches to myth its uses and purposes from viewing personal narrative as a form of healing myth to observing the atrocities committed daily arising from the most destructive

form of myth The authors of the eight chapters here note that myths have existed from the beginning of the human race in a myriad of forms and serving a myriad of functions Indeed the shared observation of these scholars is that humans have always been storytellers and always will be because myths are a part of the lives of every single person they are the story of us ,2018-11-30

The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of *A Chronology of the Primeval Gods and the Western Sunrise* ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Prajapati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts The Lessons of Nature in Mythology Rachel S. McCoppin,2015-10-29 This examination of myths from around the world focuses on the role nature plays within mythology Creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world Nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom Mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death The author identifies divinities who were direct representations of natural phenomena The transition of mythic representations from the Paleolithic to Neolithic period is discussed **The New World Order** Vikram S. Bobbili,2019-02-01 Human history has produced hundreds of epic writers poets novelists and historians to narrate what s occurred in the past 5 000 years of human beings cultural history There s abundant information about social habits religious beliefs and political and economic institutions established and perfected by the human species through the ages from the beginning days of human civilization to today In *The New World Order* author Vikram S Bobbili

analyzes this history concluding that differences among human races are superficial transitory in nature and subject to continuous change He asserts the oneness of human populations by examining the origin of the human species and his journey from the nuclear zone in Africa 1 5 million year ago his ordeals through different ages prehistoric the ancient the medieval and the modern times and his onward journey in the conquest of space Bobbili also explores the challenges humans have faced in the past the possible changes and problems he is apt to address in the future and the measures he must institute to ensure his continuous survival The New World Order emphasizes the need to invent new faiths and adopt new policies to see a near homogeneity in political economic religious and social institutions for achieving the ultimate goal establishment of great human society *Folklore, Myths, and Legends* Donna Rosenberg,1997 Covers folklore myths and legends in Africa the Middle East Europe the Americas and the Far East **Biblical Folklore** Daniel Vincent,2007 This book takes a new look at the Bible and its people from the dimension of its folk elements **How Can You Still Be Catholic?** Christopher Sparks, Christopher Sparks asked Facebook friends to finish the question How can you still be Catholic when The replies came swiftly and forcefully With that Sparks went to work Here is the result In this book he addresses the biggest issues people grapple with when they think about the Catholic Church the Inquisition the Crusades the Church's role in a state homosexuality the role of women in the Church and many others For skeptics and non Catholics this book is an invitation to understanding the faith a way for outsiders to hear one contemporary Catholic's worldview and to see through Catholic eyes even if they remain unconvinced For Catholics this book is an introduction to an array of answers and resources for delving more deeply into and defending the faith *Supreme God: Body, Will, Wisdom, and Work* , **Heroes and Heroines of Greece and Rome** Brian Kinsey,2012-01-15 Explores well known heroic figures as well as the demigods nymphs sorceresses and other creatures that inhabited the mortal world and figured prominently in the myths of the heroes and heroines of Greece and Rome Forgotten Worlds Patrick Chouinard,2012-05-29 An examination of the mythological historical and archaeological evidence for lost civilizations throughout the world Explores unexplained mysteries such as the Caucasian mummies of China the pyramids of Caral in Peru and the genetically unique X woman of Siberia Examines evidence of lost ancient civilizations in Asia Europe and the Americas including extensive investigation into Atlantis Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again mainstream views of early history which state that the first civilizations arose around 3500 BCE are plagued by evidence of much older civilizations evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt Viewing Atlantis and its many related myths as a metaphor for a long lost global civilization Patrick Chouinard explores the mythological cultural religious and archaeological evidence for many forgotten civilizations in Europe Asia and the Americas He addresses unexplained mysteries from around the world such as Caucasian mummies found in China the pyramids of Caral in Peru the hobbit remains on Flores Island the

giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history **Skillbook for Speech**
