Take It Easy **Managing the Unknown** Frank Uekötter,Uwe Lübken,2014-03-01 Information is crucial when it comes to the management of resources But what if knowledge is incomplete or biased or otherwise deficient How did people define patterns of proper use in the absence of cognitive certainty Discussing this challenge for a diverse set of resources from fish to rubber these essays show that deficient knowledge is a far more pervasive challenge in resource history than conventional readings suggest Furthermore environmental ignorance does not inevitably shrink with the march of scientific progress these essays suggest more of a dialectical relationship between knowledge and ignorance that has different shapes and trajectories With its combination of empirical case studies and theoretical reflection the essays make a significant contribution to the interdisciplinary debate on the production and resilience of ignorance At the same time this volume combines insights from different continents as well as the seas in between and thus sketches outlines of an emerging global resource history **The World's Greatest Books (Vol. 1-18)** Various,2023-11-12 The World s Greatest Books Vol 1 18 is an expansive anthology that brings together a carefully curated selection of literary masterpieces from diverse cultures and time periods Spanning various genres including fiction poetry and philosophy these volumes encapsulate the essence of human thought and creativity The anthology adopts a scholarly yet accessible style characterized by insightful introductions and contextual notes that enhance the reader s understanding of each work s historical and cultural significance In delivering this collection the editors invite readers to engage with texts that have shaped intellectual discourse and inspired generations The contributors to this anthology include notable literary scholars and anthologists whose extensive backgrounds in literary criticism and history inform their selections Their deep passion for literature underscores their commitment to showcasing the most influential authors and works from ancient to contemporary times This careful curation reflects a desire to provide readers with lasting insights into the human experience demonstrating how these literary contributions resonate across various contexts I wholeheartedly recommend The World s Greatest Books Vol 1 18 to readers and scholars alike for it is not merely a collection it is a gateway to discovering the profound intricacies of human thought and creativity This anthology serves both as a valuable reference for academic study and a rich source for casual reading making it an essential addition to any literary library The United Nations World Water Development Report UNESCO World Water Assessment Programme,2021-03-22 Water is a finite and non substitutable resource As the foundation of life societies and economies it carries multiple values and benefits But unlike most other natural resources it has proven extremely difficult to determine its true value The 2021 edition of the United Nations World Water Development Report titled Valuing Water assesses the current status of and challenges to the valuation of water across different sectors and perspectives and identifies ways in which valuation can be promoted as a tool to help improve its management and achieve global sustainable development **Amnesty International and Human Rights Activism in Postwar Britain, 1945-1977** Tom Buchanan,2020-04-30 In this definitive new account of the emergence of human rights activism in post war Britain Tom Buchanan shows how disparate individuals organisations

and causes gradually came to acquire a common identity as human rights activists This was a slow process whereby a coalition of activists working on causes ranging from anti fascism anti apartheid and decolonisation to civil liberties and the peace movement began to come together under the banner of human rights The launch of Amnesty International in 1961 and its landmark winning of the Nobel Peace Prize in 1977 provided a model and inspiration to many new activist movements in the field of human rights and helped to affect major changes towards public and political attitudes towards human rights issues across the globe *Bibliographies and Literature of Agriculture* ,1978 *East European Accessions Index* ,1960
