Fang, 2013 The World Health Organization s history spans more than six decades The past twenty years has been a particularly busy period in the organization s development given the transition from international to global health cooperation and thus the need to adapt to major changes in its operating environment Consequently the WHO has been a direct part of new institutional arrangements and has shared in increased funding to provide for global health It has also had to adapt its activities and programs in response to rival initiatives leading to many changes not only to the names of specific parts of the WHO but also to the nature of their activities This second edition explores the organization s institutional complexity Back cover

World Health Organization, 1985-01-01 *Chronicle of the World Health Organization* World Health Organization, 1953 *Give and Take* Nitsan Chorev, 2019-12-10 Give and Take looks at local drug manufacturing in Kenya

Tanzania and Uganda from the early 1980s to the present to understand the impact of foreign aid on industrial development While foreign aid has been attacked by critics as wasteful counterproductive or exploitative Nitsan Chorev makes a clear case for the effectiveness of what she terms developmental foreign aid Against the backdrop of Africa s pursuit of economic self sufficiency the battle against AIDS and malaria and bitter negotiations over affordable drugs Chorev offers an important corrective to popular views on foreign aid and development She shows that when foreign aid has provided markets monitoring and mentoring it has supported the emergence and upgrading of local production In instances where donors were willing to procure local drugs they created new markets that gave local entrepreneurs an incentive to produce new types of

drugs In turn when donors enforced exacting standards as a condition to access those markets they gave these producers an incentive to improve quality standards And where technical know how was not readily available and donors provided mentoring local producers received the guidance necessary for improving production processes Without losing sight of domestic political economic conditions historical legacies and foreign aid s own internal contradictions Give and Take presents groundbreaking insights into the conditions under which foreign aid can be effective **Advanced Practice**
