era of unprecedented prosperity and progress **Science and Technology in World History, Volume 2** David Deming, 2014-01-10 Science is a living organic activity the meaning and understanding of which have evolved incrementally over human history This book the second in a roughly chronological series explores the evolution of science from the advents of Christianity and Islam through the Middle Ages focusing especially on the historical relationship between science and religion Specific topics include technological innovations during the Middle Ages Islamic science the Crusades Gothic cathedrals and the founding of Western universities Close attention is given to such figures as Paul the Apostle Hippolytus Lactantius Cyril of Alexandria Hypatia Cosmas Indicopleustes and the Prophet Mohammed **Heligoland** Jan Rüger, 2016-12-01 On 18 April 1947 British forces set off the largest non nuclear explosion in history The target was a small island in the North Sea thirty miles off the German coast which for generations had stood as a symbol of Anglo German conflict Heligoland A long tradition of rivalry was to come to an end here in the ruins of Hitler s island fortress Pressed as to why it was not prepared to give Heligoland back the British government declared that the island represented everything that was wrong with the Germans If any tradition was worth breaking and if any sentiment was worth changing then the German sentiment about Heligoland was such a one Drawing on a wide range of archival material Jan Rüger explores how Britain and Germany have collided and collaborated in this North Sea enclave For much of the nineteenth century this was Britain s smallest colony an inconvenient and notoriously discontented outpost at the edge of Europe Situated at the fault line between imperial and national histories the island became a metaphor for Anglo German rivalry once Germany acquired it in 1890 Turned into a naval stronghold under the Kaiser and again under Hitler it was fought over in both world wars Heavy bombardment by the Allies reduced it to ruins until the Royal Navy re took it in May 1945 Returned to West Germany in 1952 it became a showpiece of reconciliation but one that continues to bear the scars of the twentieth century Tracing this rich history of contact and conflict from the Napoleonic Wars to the Cold War Heligoland brings to life a fascinating microcosm of the Anglo German relationship For generations this cliff bound island expressed a German will to bully and battle Britain and it mirrored a British determination to prevent Germany from establishing hegemony on the Continent Caught in between were the Heligolandians and those involved with them spies and smugglers poets and painters sailors and soldiers Heligoland is the compelling story of a relationship which has defined modern Europe **Catalog of Copyright Entries. Science and Technology in World History, Volume 3 David Deming, 2014-01-10 This installment in a series on science and technology in world history begins in the fourteenth century explaining the origin and nature of scientific methodology and the relation of science to religion philosophy military history economics and technology Specific topics covered include the Black Death the Little Ice Age the invention of the printing press Martin Luther and the Reformation the birth of modern medicine the Copernican Revolution Galileo Kepler Isaac Newton and the Scientific Revolution Poole's Index to Periodical Literature William Isaac Fletcher, 1888 The China Problem in Postwar Japan Robert Hoppens, 2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People's Republic of China PRC The two countries established diplomatic relations for the first time forged close economic ties and reached political agreements that still guide and constrain relations today This book delivers a history of this foundational period in Sino Japanese relations It presents an up to date diplomatic history of the relationship but also goes beyond this to argue that Japan's relations with China must be understood in the context of a larger China problem that was inseparable from a domestic contest to define Japanese national identity The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino Japanese relations showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity not its weakness **Poole's Index to Periodical Literature** William Frederick Poole, 1882 Poole's Index to Periodical Literature: First supplement, January 1, 1882-January 1, 1887 William Frederick Poole, William Isaac Fletcher, 1888 *Select Notes* Mary Abby Thaxter Peloubet, 1882
