Generational Key to History Michael A. Susko, 2025-01-17 Generational Key to History Tracing Phases From Ancient Egypt to America This work reveals how generations form the hidden rhythm of history By charting time in 15 year generational intervals an approach first used by the medieval historian Bede and later championed by the twentieth century philosopher Jos Ortega y Gasset the author uncovers distinct phases that recur across civilizations Rather than relying solely on yearly dating which can fragment historical awareness this generational lens exposes history's deeper coherence The phases found are 1 Beginnings and

testing 0 15 generations 2 Establishment and unifying image beginning at 15 20 generations 3 Consolidation and opening up 30 generations 4 Crisis and creativity 40 generations 5 Universalization and inclusion 50 generations and 6 Renewal or rigidification 60 generations Through detailed case studies Egypt Israel Judah Rome the Medieval Modern era and the United States the author shows how each culture moves through these generational arcs revealing a pattern that mirrors the human life cycle The 30th generation often neglected by historians emerges as a pivotal phase of openness justice and illumination In sum A Rosetta Key for History does not merely present a new way to measure time it reveals the living architecture of history itself Across continents and centuries generations become the Rosetta key for understanding time s unfolding design
