What were the lives of Africans in provincial England like during the early modern period How where and when did they arrive in rural counties How were they perceived by their contemporaries This book examines the population of Africans in Norfolk and Suffolk from 1467 the date of the first documented reference to an African in the region to 1833 when Parliament voted to abolish slavery in the British Empire It uncovers the complexity of these Africans historical experience considering the interaction of local custom class structure tradition memory and the gradual impact of the Atlantic slaving economy Richard C Maguire proposes that the initial regional response to arriving Africans during the fifteenth and sixteenth centuries was not defined exclusively by ideas relating to skin colour but rather by local understandings of religious status class position ideas about freedom and bondage and immediate local circumstances Arriving Africans were able to join the region s working population through baptism marriage parenthood and work This manner of response to Africans was challenged as local merchants and gentry begin doing business with the slaving economy from the mid seventeenth century onwards Although the racialised ideas underpinning Atlantic slavery changed the social circumstances of Africans in the region the book suggests that they did not completely displace older more inclusive ideas in working communities

The Lithic Imagination from More to Milton Tiffany Jo Werth,2024-07-08 The Lithic Imagination from More to Milton explores how stones rocks and the broader mineral realm play a vital role in early modern England s religious and cultural systems a role that in turn informs the period s poetic and visual imagination The scale of the human lifespan and the gyre like turns of England s long Reformation provide a conceptual framework for the various stony textual and visual archives this book studies The texts and images participate in specifically English histories literary artistic political religious although Continental influences are frequently in dialogue The religious orbit encompasses the Christian rivalry with Jewish culture touches on Christianity s tension with Islam but most intently centers on the antagonism between Catholic and variants of Protestant and Reformed belief The volume features canonical writers such as Shakespeare Spenser Donne Wroth Herbert Milton and Pulter but puts them in company with lesser known religious polemicists alchemists anatomists painters mothers and stonemasons Accordingly the multimedia archive includes drama lyric and prose as well as biblical illustrations tapestries church furniture paintings anatomical drawings and statues The lithic too is capaciously construed as a continuum

of rocky as well as mineral forms ranging from bodily encrustations like the kidney and bezoar stone to salt iron limestone marble flint and silicon The assemblage of materials bears witness to aspirational imperial fantasies and looming colonial conquests it engages in both syncretism and supersession upholds and subverts gender hierarchies limns the race making category of hue with desire and supports and sometimes thwarts elitist ideologies of an elect chosen people All come together via the storied pathways of stone as densely material and as a foundation for the abstract imaginary along the scala naturae Across the lithic human fold stone promises fascinates betrays As alpha and omega stone can herald salvation or it can threaten with damnation **The Railway Times ...** ,1854 **The Publisher** ,1901 The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1901 Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1901 *Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World* Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,1914
