Worlds In Collision By Immanuel Velikovsky Doubleday May 7 1950:

The Age of Catastrophe John David Ebert,2012-09-18 Disasters both natural and man made are on the rise Indeed a catastrophe of one sort or another seems always to be unfolding somewhere on the planet We have entered into a veritable Age of Catastrophes which have grown both larger and more complex and now routinely very widespread in scope The old days of the geographically isolated industrial accidents of the sinking of a Titanic or the explosion of a Hindenburg together with their isolated causes and limited effects are over Now disasters on the scale of Hurricane Katrina the BP oil spill or the Japan tsunami and nuclear reactor accident threaten to engulf large swaths of civilization This book analyzes the efforts of Westerners to keep the catastrophes outside while maintaining order on the inside of society These efforts are breaking down Nature and Civilization have become so intertwined they can no longer be separated Natural disasters moreover are becoming increasingly more difficult to differentiate from man made Instructors considering this book for use in a course may request an examination copy here *The #1 New York Times Bestseller* John Bear,1992 Lists hundreds of books that have made the famous list and offers facts about the publishing industry authors and the list itself [Athirst in Spirit](#) Eugene Sierras,2018-06-06 Richard Valencia is in the autumn of his life He has suffered the tragic loss of his first wife and daughter He has enjoyed a successful marriage of thirty years before the loss of his second wife to cancer He has known the laughter and joy of grandchildren Yet there remains an empty void in his heart For several years he has dedicated himself to the pursuit of knowledge in several disciplines to better understand the world and his purpose and destiny in it Plasma cosmology religion and mythology are all disciplines that together with traditional scientific pursuits provide him a better understanding of the universe He is working to index that knowledge in hopes of providing data from which he can begin to learn the answers Will the love of a woman bring a deeper understanding to his quest [Northrop Frye on Religion](#) Northrop Frye,2000-01-01 An annotated edition of Frye s writings on the Bible and religion over a period of 57 years between 1933 1990 The overall variety of writings is wide including major essays addresses sermons editorials and representative prayers and benedictions *Velikovsky Reconsidered* Pensee Editors,1976 **Mythmaking across Boundaries** Züleyha Çetiner-Öktem,2016-04-26 This volume explores the dynamics of myths throughout time and space along with the mythmaking processes in various cultures literatures and languages in a wide range of fields ranging from cultural studies to the history of art The papers brought together here are motivated by two basic questions How are myths made in diverse cultures and literatures And do all different cultures have different myths to be told in their artistic pursuits To examine these questions the book offers a wide array of articles by contributors from various cultures which focus on theory history space place philosophy literature language gender and storytelling Mythmaking across Boundaries not only brings together classical myths but also contemporary constructions and reconstructions through different cultural perspectives by transcending boundaries Using a wide spectrum of perspectives this volume instead of emphasising the different modes of

the mythmaking process connects numerous perceptions of mythmaking and investigates diversities among cultures languages and literatures viewing them as a unified whole As the essays reflect on both academic and popular texts the book will be useful to scholars and students as well as the general reader Ancient History Refined Jeff Walling,2020-11-22 Ancient History Refined combines the study of creation secular science and the Bible to present a groundbreaking theory that reconciles ancient historical records with events in the Holy Book Jeff Walling presents the Barnes Humphreys theory related to C 14 dating which has proved to be accurate in calculating the measured values for the existence strength and the decay rate of the magnetosphere Up until now creationists and Bible scholars have neglected to consider this science when dating historical events and they ve failed to make the necessary alignment synchronizations of time periods from Biblical chronologies with secular chronologies Walling avoids that mistake applying his B H theory to the Egyptological chronologies based on the C 14 dates given to artifacts of associated time periods see appendix B While researching he observed strict adherence to the scientific method Whether you re a historian Bible scholar archeologist pastor or student you ll enjoy finding out how creation science solves mysteries of the past **Proceedings, American Philosophical Society (vol. 96, no. 5) , Bulletin of the Atomic Scientists** ,1975-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world The Bible Has the Answer Henry Morris,1976-04-01 How do we know the Bible is true Why did God create the universe How will we spend eternity Neglecting and rejecting God s Word has its consequences abortion AIDS troubled relationships crime immorality personal freedoms the Bible is vital in solving and preventing the very real problems facing people today Will all men eventually be saved How can I know God s will Is a Christian supposed to obey the government Why did God create Satan Is the end of the world near There are many questions today that demand answers in our daily lives we can t avoid them After reading this book you ll clearly see answers to questions such as these and others that affect our Christian walk **The New Monuments and the End of Man** Robert Slifkin,2019-11-05 How leading American artists reflected on the fate of humanity in the nuclear era through monumental sculpture In the wake of the atomic bombings of Japan in 1945 artists in the United States began to question what it meant to create a work of art in a world where humanity could be rendered extinct by its own hand The New Monuments and the End of Man examines how some of the most important artists of postwar America revived the neglected tradition of the sculptural monument as a way to grapple with the cultural and existential anxieties surrounding the threat of nuclear annihilation Robert Slifkin looks at such iconic works as the industrially evocative welded steel sculptures of David Smith the austere structures of Donald Judd and the desolate yet picturesque earthworks of Robert Smithson Transforming how we understand this crucial moment in American art he traces the intersections of postwar sculptural practice with cybernetic theory science fiction cinema and literature and the political debates surrounding nuclear warfare Slifkin

identifies previously unrecognized affinities of the sculpture of the 1940s and 1950s with the minimalism and land art of the 1960s and 1970s and acknowledges the important contributions of postwar artists who have been marginalized until now such as Raoul Hague Peter Grippe and Robert Mallery Strikingly illustrated throughout The New Monuments and the End of Man spans the decades from Hiroshima to the Fall of Saigon when the atomic bomb cast its shadow over American art

Immanuel Velikovsky ,1972 **When the Asteroid Hits** Allen A. Debus,2024-10-04 The incomprehensible notion of a very large chunk of ice or rock from outer space smashing into the Earth has only become mainstream within the past two centuries Though early writers imagined the utterly fantastic consequences of comet collisions and speculated on the devastation they might wreak it was not until the 1980s when scientists finally resolved that dinosaurs were extinguished by an asteroid 66 million years ago This startling announcement captivated the media and tilted the science fiction world but in reality history may have been punctuated repeatedly by such events This book collects and analyzes ideas of asteroid comet and planetary impacts with Earth spanning two centuries from the first realization of extinctions in fossil records to the new millennium reflected in scores of sci fi stories films and televised science documentaries The author examines social and geopolitical fears tied to the prospect of a cosmic borne catastrophe Science fiction and speculation are artfully melded

PSA 1974 Robert S. Cohen,C.A. Hooker,Alex C. Michalos,J. van Evra,2012-12-06 For this book we have selected papers from symposia and contributed sessions at the fourth biennial meeting of the Philosophy of Science Association held at the University of Notre Dame on November 1 3 1974 The meeting was lively and well attended and we regret that there was no way to record here the many stimulating discussions after the papers and during the informal hours We also regret that we had in sufficient space for all the contributed papers Even more some of the symposia were not available those on systems and decision theory c W Churchman P Suppes I Levi and on the Marxist philosophy of science M W Wartofsky R S Cohen E N Hiebert Unhappily several individual contributions to other symposia were likewise not available I Velikovsky in the session on his own work and the politics of science D Finkelstein in the session on quantum logic Memorial minutes were read for Alan Ross Anderson prepared by Nuel Belnap and for Imre Lakatos prepared by Paul Feyerabend They initiate this volume of philosophy of science in the mid seventies The Failure of Bible Prophecy Sandoval Chris Sandoval,Chris Sandoval,2010 Fundamentalists say the fulfillment of prophecy proves the divine inspiration of the Bible Supposedly the prophets predicted Jesus Christ s birth ministry death and resurrection centuries before he existed They also supposedly predicted the rise and fall of nations such as Tyre Egypt Edom and Babylon And they claim to have described the threat of Russia the founding of Israel in 1948 and the political unification of Europe Upon closer examination the claims do not hold up The so called messianic prophecies are taken out of context and have nothing to do with Jesus This book proves Nebuchadnezzar never made a wasteland out of Egypt for forty years as Ezekiel predicted The world did not end immediately after the fall of Jerusalem in 70 AD as Jesus had purportedly predicted in Matthew 24 The biblical prophets predicted nothing about Christ or

Antichrist in the distant future but plenty about apocalyptic doom and messianic glory in their own near future And much more Find out why biblical explanations of the world today do not add up and why this matters in The Failure of Bible Prophecy

Gnostic Secrets of the Naassenes Mark H. Gaffney, 2004-04-19 Reveals the hidden meaning of the Grail and a secret Christian doctrine for achieving higher consciousness Shows that Gnosticism is not a derivative of Christianity but the revelation of the true message of Jesus Describes the ancient relationship between water and spirit Explains the doctrine of immanence taught by Jesus at the Last Supper Features the translated source text from The Refutation of All Heresies by Bishop Hippolytus the only existing record of the Naassene Sermon In the third century C E the Catholic Bishop Hippolytus composed A Refutation of All Heresies in which his chief target was the Gnostic sect the Naassenes whose writings included a recounting of Jesus actual teachings at the Last Supper Contrary to Church attacks the Naassenes were not a heretical derivative of Christianity but the authentic foundation and purveyor of Christ s message In fact much of what passes as Christianity has nothing to do with the original teachings of its founder The message recorded in the Naassene Sermon was intended for an inner circle of disciples who were prepared for advanced initiation into Jesus wisdom teachings The Grail discussed therein was not an actual chalice but a symbol of the indwelling of the divine The teachings involved the awakening of spirit and included practices aimed at restoring the soul s lost connection with God Immanence in the true sense intended by Jesus thus allows for spiritual attainment in this life by ordinary individuals without the intermediary of Church or priest This was the real meaning of the Last Supper and why the Naassenes believed that Jesus was the fulfillment of all the Mystery traditions

The Genesis Race Will Hart, 2003-10-24 Shows that Earth was visited by an extraterrestrial race who bioengineered modern man in its image and taught man how to construct the pyramids Examines the flaws in Darwin s theory of evolution and presents startling new evidence of intelligent intervention Reveals the messages coded in the pyramids left by the ancients concerning impending Earth changes at the end of the Mayan calendar For millennia the development of humanity showed a consistent homogenous pattern Then suddenly around 3000 B C E great civilizations sprang up around the globe All the creation myths of these civilizations tell of gods who came down to Earth and fashioned man in their own image teaching them the arts of agriculture and civilized life In addition the dominant architectural design in Egypt Sumeria Peru Mexico and China was the pyramid though science has never been able to explain why or where these peoples obtained the advanced technological knowledge to construct such edifices The abruptness and similarities of these evolutionary leaps calls into question the Darwinian theory of evolution given that there are no traces of any intermediate evolutionary forms Now using the most current research on DNA Will Hart shows that these gods were actually visitors from other worlds who genetically engineered modern humanity from the beings that then inhabited the planet He also suggests that the Bible and other creation stories have been interpreted falsely as myth when they should have been read as history The structures left by our ancestors were designed in accordance with precise astronomical and geodetic alignments to make

them visible from outer space and to survive for thousands of years with the intent of communicating information relating to physical and temporal events Humanity s current stage of development has finally reached the point where the secret messages of these structures can be decoded to reveal the fate of humanity in the coming Earth changes **Bulletin of the Atomic Scientists** ,1975-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world [Homeland Mythology](#) Christopher Collins,2010-11-01 Collins shows that biblical narratives have inspired a multitude of nationalist narratives myths ingeniously spun out to justify a number of decidedly unchristian policies and institutions from Indian genocide the slave trade and the exploitation of immigrant workers to Manifest Destiny imperial expansionism and most recently preemptive war **An Alternative View of the Distant Past** Charles Giuliani,2008-12-21 This book is a multidisciplinary study that brings together a variety of ancient physical and legendary evidences that are often brushed aside which collectively present an entirely different and far more sensible picture of early Earth and human history from what mainstream academic presents Break yourself free from their chains and discover a fascinating story of the ancient past that will blow your mind
