

A romantic couple is shown in a close embrace, nearly kissing. The woman, on the left, has blonde hair styled in soft waves and is wearing a vibrant red, sleeveless dress. The man, on the right, is dressed in a formal black tuxedo with a white shirt and a dark bow tie. They are positioned against a dark background that features a blurred city skyline at night, with various lights from buildings and streets visible. The overall mood is intimate and romantic.

The Conflict in Syria and the Failure of International Law to Protect People Globally Jeremy Julian Sarkin, 2021-11-28 This book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for

students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies

Soviet Constitutional Crisis Robert S. Sharlet, 1992 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms
