The epic story of the Boer War and Harry Breaker Morant drover horseman bush poet murderer or hero Most Australians have heard of the Boer War and of Harry Breaker Morant a figure who rivals Ned Kelly as an archetypal Australian folk hero But Morant was a complicated man Born in England and immigrating to Queensland in 1883 he established a reputation as a rider polo player and poet who submitted ballads to The Bulletin and counted Banjo Paterson as a friend Travelling on his wits and the goodwill of others Morant was quick to act when appeals were made for horsemen to serve in the war in South Africa He joined up first with the South Australian Mounted Rifles and then with a South African irregular unit the Bushveldt Carbineers The adventure would not go as Breaker planned In October 1901 Lieutenant Harry Morant and two other Australians Lieutenants Peter Handcock and George Witton were arrested for the murder of Boer prisoners Morant and Handcock were court martialled and executed in February 1902 as the Boer War was in its closing stages but the debate over

their convictions continues to this day With his masterful command of story Peter FitzSimons takes us to the harsh landscape of southern Africa and into the bloody action of war against an unpredictable force using modern commando tactics The truths FitzSimons uncovers about the Breaker and the part he played in the Boer War are astonishing and finally we will know if the Breaker was a hero a cad a scapegoat or a criminal

Parkinson's Disease and Nonmotor Dysfunction Ronald F. Pfeiffer, Ivan Bodis-Wollner, 2007-11-10 Parkinson s Disease and Nonmotor Dysfunction fills a major gap in the current rapidly growing body of knowledge concerning Parkinson s disease Drs Pfeiffer and Bodis Wollner have correctly perceived that many nonmotor features of Parkinson s disease are given insufficient attention in the medical literature Unfortunately they are often also given insufficient attention by the practicing neurologists who see these patients As recently pointed out there is clearly much more to Parkinson s disease than depletion of the nigrostriatal dopamine system 1 Parkinson s disease not just multiple system atrophy is a multisystem disorder both pathologically and in its clinical

manifestations This is clearly true for the various motor system abnormalities which are not fully corrected by dopamine replacement therapy strategies but also for the nonmotor system abnormalities that are the subject of this volume Although recently there has been increased awareness of the cognitive psychiatric and sleep disorders commonly associated with Parkinson s disease many of their manifestations remain under recognized and their importance in managing patients is underestimated Even less attention is paid to the myriad of other nonmotor disturbances that plague these patients For example among the autonomic disorders although orthostatic hypotension is well recognized it is usually attributed to dopaminergic medications rather than to effects of the underlying disease Urologic disorders are also very familiar in these patients but may not be properly understood or well managed **The Autocar** ,1968-02-22 **American Book**
