Copyright Office,1962 Includes Part 1 Number 1 Books and Pamphlets Including Serials and Contributions to Periodicals January June Field Manuals United States. War Department,1944 **Cherishing Men from Afar** James Louis Hevia,1995 In the late eighteenth century two expansive Eurasian empires met formally for the first time the Manchu or Qing dynasty of China and the maritime empire of Great Britain The occasion was the mission of Lord Macartney sent by the British crown and sponsored by the East India Company to the court of the Qianlong emperor Cherishing Men from Afar looks at the initial confrontation between these two empires from a historical perspective informed by the insights of contemporary postcolonial criticism and cultural studies The history of this encounter like that of most colonial and imperial encounters has traditionally been told from the Europeans point of view In this book James L Hevia consults Chinese sources many previously untranslated for a broader sense of what Qing court officials understood and considers these documents in light of a sophisticated anthropological understanding of Qing ritual processes and expectations He also reexamines the more familiar British accounts in the context of recent critiques of orientalism and work on the development of the bourgeois subject Hevia s reading of these sources reveals the logics of two discrete imperial formations not so much impaired by the cultural misunderstandings that have historically been attributed to their meeting but animated by differing ideas about constructing relations of sovereignty and power His examination of Chinese and English language scholarly treatments of this event both historical and contemporary sheds new light on the place of the Macartney mission in the dynamics of colonial and imperial encounters Birth of a Salesman Walter A. FRIEDMAN,Walter A Friedman,2009-06-30 In this entertaining and informative book Walter Friedman chronicles the remarkable metamorphosis of the American salesman from itinerant amateur to trained expert From the mid nineteenth century to the eve of World War II the development of sales management transformed an economy populated by peddlers and canvassers to one driven by professional salesmen and executives From book agents flogging Ulysses S Grant s memoirs to John H Patterson s famous pyramid strategy at National Cash Register to the determined efforts by Ford and Chevrolet to craft surefire sales pitches for their dealers selling evolved from an art to a science Salesmanship as a term and a concept arose around the turn of the century paralleling the new science of mass production Managers assembled professional forces of neat responsible salesmen who were presented as hardworking pillars of society no longer the butt of endless traveling salesmen jokes People became prospects their homes became territories As an NCR representative said the modern salesman let the light of reason into dark places The study of selling itself became an industry producing academic disciplines devoted to marketing consumer behavior and industrial psychology At Carnegie Mellon s Bureau of Salesmanship Research Walter Dill Scott studied the characteristics of successful salesmen and ways to motivate consumers to buy Full of

engaging portraits and illuminating insights Birth of a Salesman is a singular contribution that offers a clear understanding of the transformation of salesmanship in modern America Reviews of this book The history Friedman weaves is engrossing and the book hits stride with entertaining chapters on Mark Twain s marketing of the memoirs of Ulysses S Grant apparently Twain was as talented a businessman as a writer and on the shift from the drummer the middleman between wholesalers and regional shopkeepers to the department store In Birth of a Salesman Friedman has crafted a history of an inherently unlikable process with depth affection and intelligent analysis Carlo Wolff Boston Globe I very much enjoyed reading this book It is well written well argued and thoroughly researched Salesmen Friedman argues helped distribute the products of America s increasingly bountiful manufacturing industries invented new forms of managerial hierarchies investigated the psychology of desire and were in the vanguard of America s transformation from a producer to a consumer society He powerfully shows that the rise of modern business practices and the emergence of a particularly American culture of consumption can only be fully understood if we examine the history of selling Sven Beckert author of The Monied Metropolis Walter Friedman s Birth of a Salesman The Transformation of Selling in America is an important book The modern industrial economy created in the United States and Europe between the 1880s and the 1930s required the integration of large scale production and marketing The evolution of mass production is a well known story but Friedman is the first to fill in the crucial marketing side of that industrial revolution Alfred D Chandler Jr author of The Visible Hand and Scale and Scope With wit and verve Walter Friedman gives us a cast of memorable characters who turned salesmanship from ballyhoo to behaviorism from silliness to science Informed by prodigious research Birth of a Salesman also clarifies the birth of modern marketing from an angle that humanizes its subject through wry ironic but serious analysis This is a pioneering work on a subject crucial to American social cultural and business history Thomas K McCraw author of Creating Modern Capitalism
