Manual Training Magazine Charles Alpheus Bennett, 1920 **Fabricating Consumers** Andrew Gordon, 2011-11-01

Since its early days of mass production in the 1850s the sewing machine has been intricately connected with the global development of capitalism Andrew Gordon traces the machine's remarkable journey into and throughout Japan where it not only transformed manners of dress but also helped change patterns of daily life class structure and the role of women As he explores the selling buying and use of the sewing machine in the early to mid twentieth century Gordon finds that its history is a lens through which we can examine the modern transformation of daily life in Japan Both as a tool of production and as an object of consumer desire the sewing machine is entwined with the emergence and ascendance of the middle class of the female consumer and of the professional home manager as defining elements of Japanese modernity **Knitting Times ... Hanks, Anne Hoy, 2005-08-30 The twentieth century loved machines and the speed they made possible Speeding cars trains and planes promised to conquer space and time their aerodynamic styling and metal skins embodied a new and modern beauty one that especially enchanted American designers from the late 1920s through the 1950s Streamlining became the popular American style for all sorts of objects from toy scooters to typewriters from power tools to teakettles This book celebrates this beauty as epitomized by the work of Raymond Loewy Kem Weber Henry Dreyfuss Norman Bel Geddes as well as in works by many lesser known industrial designers whose products are presented here for the first time The book also demonstrates the resurgence of interest in streamlining among international vanguard designers from the 1980s to the present This volume is illustrated with patent drawings and period photographs showing how these dynamically styled objects were used The one hundred eighty objects presented here drawn from the Eric Brill Collection recently donated to the American Friends of Canada and supplemented by pieces from the Stewart Collection at the Montreal Museum of Fine Arts were photographed for this book A full bibliography biographies of the designers and index complete the study **BOOK JACKET** **A Companion to Feminist Geography** Lise Nelson, Joni Seager, 2025-07-28 A Companion to Feminist Geography captures the breadth and diversity of this vibrant and substantive field Shows how feminist geography has changed the landscape of geographical inquiry and knowledge since the 1970s Explores the diverse literatures that comprise feminist geography today Showcases cutting edge research by feminist geographers Charts emerging areas of scholarship such as the body and the nation Contributions from 50 leading international scholars in the field Each chapter can be read for its own distinctive contribution **American Enterprise in Foreign Markets** Fred V.

Carstensen,2018-08-25 In 1914 the two largest firms in Russia were subsidiaries of American companies Remarkably they were almost as large as their parent companies striking testimony to the potential of the underdeveloped Russian market Fred Carstensen provides detailed histories of the movement of International Harvester and Singer into this new profitable and somewhat forbidding territory Describing how both sales organizations evolved in Russia Carstensen relates their development to overall company histories worldwide growth changing sales strategies and structures recruitment and training of employees and corporate leadership in America and abroad He finds that both firms entered the Russian market because they needed new outlets to sustain high levels of production and sales Although there are parallels in their experiences Carstensen identifies how the responses of the two corporations differed reflecting the varying strategies and perceptions of company management Together the case studies provide a test for many of the supposed qualities and patterns of Russian economic history Contrary to accounts of the experiences of other companies these firms found the Russian market remarkably rich developing a level of sales that might have surpassed the American market if war had not erupted In contrast to the standard view of foreign enterprise neither company came to Russia because of government invitation or influence but rather because of the intrinsic attractiveness of the markets and neither firm found the government bureaucracy graft ridden or the customers dishonest Carstensen shows that International Harvester and Singer Sewing Machine clearly influenced Russia in a positive way Both trained large numbers of Russians in modern industrial and marketing procedures and both provided an extraordinary volume of credit on comparatively easy terms to encourage purchase of their products Indeed the success of their approach suggests that Russian economic development may have been limited not by weak aggregate demand but by the relative absence of sources of credit Originally published in 1984 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
