Contemporary Westerns Andrew Patrick Nelson, 2013-10-10 Though one of the most popular genres for decades the western started to lose its relevance in the 1960s and 1970s and by the early 1980s it had ridden into the sunset on screens both big and small The genre has enjoyed a resurgence however and in the past few decades some remarkable westerns have appeared on television and in movie theaters From independent films to critically acclaimed Hollywood productions and television series the western remains an important part of American popular culture Running the gamut from traditional to revisionist with settings ranging from the old West to the new Wests of the present day and distant future contemporary westerns continue to explore the history geography myths and legends of the American frontier In *Contemporary Westerns Film and Television since 1990* Andrew P Nelson has collected essays that examine the trends and transformations in this underexplored period in Western film and television history Addressing the new Western they argue for the continued relevance and vibrancy of the genre as a narrative form The book is organized into two sections Old West New Stories examines Westerns with common frontier locales such as *Dances with Wolves* *Unforgiven* *Deadwood* and *True Grit* New Wests Old Stories explores works in which familiar Western narratives characters and values are represented in more modern and in one case futuristic settings Included are the films *No Country for Old Men* and *There Will Be Blood* as well as the shows *Firefly* and *Justified* With a foreword by Edward Buscombe as well as an introduction that provides a comprehensive overview this volume offers readers a compelling argument for the healthy survival of the Western Written for scholars as well as educated viewers *Contemporary Westerns* explores the genre's evolving relationship with American culture history and politics

Tuning in Ronald Wayne Rodman, 2010 Television has been called the boob tube goof box and even a vast wasteland of American culture Yet for all its banality television is in many ways a mirror of culture and communicates messages within culture through the multiple channels of visual images language sound and music All of these channels contain their own unique coded messages to create the larger meaningful text of television As one of these sensory channels music contributes to meaning in television through its artistic language and through television viewers association of music with certain aspects of culture Music has always been an integral part of the American television even from its earliest days Like its parent medium of radio television broadcasts music to entertain viewers with live and video taped performances but music has also come to play a much larger role in television beyond its pleasurable performance aspects Music is used in narrative programs to evoke moods and identify characters and setting it is used to sell products through

commercial jingles and most importantly music generally aids broadcast television in navigating through the continuous flow of daily programming This navigational aspect of television music is a distinctive feature and functions to transport the viewer through three spaces of TV the flow of the televisual apparatus with commercials newbreaks and promos the storyworld of each narrative program and the representational space between narrative and flow As Heard on TV is an examination and analysis of music in American television during the first fifty years of its history The book focuses on how music has functioned to serve as a navigator through the flow of television and contributing to structure narrative programs while also conveying meaning to its viewers by correlating with the images and sounds that it accompanies Drawing from precedents of the cinema and radio the book examines music in a number of classic television genres by positing a theory of functional musical spaces adapted from theories of Charles Morris Umberto Eco John Fiske and others

Re-Entering Old Spaces Aleksandra Nikcevic-Batricevic, 2016-05-11 This book is a product of the XI International Conference on English Language and Literary Studies held in Montenegro in 2014 The old spaces were taken as a metaphorical tool for reintroducing a wide range of established topics with new approaches Space was thus understood as physical mechanical continuous linear as measurable and symbolic as subjective and relational and as aesthetic It was found on maps in architecture on theatre stages in books in hearts in one's identity in time and in theses and theories from the Aristotelian topos to Einstein's construct of space time Therefore the means of travel to these spaces and the forms the journeys take are also multifarious However so are the discursive strategies and their limitations when it comes to presenting the journeys and their destinations The contributors to this volume represent a range of nationalities and present research that either follows in the footsteps of other authors in a literal or secondary literary journey to real geographical places or observes the universal literary and old theoretical issues through new critical lenses Indeed they are often on both roads witnessing how inextricable human efforts are to finding identifying and aestheticising oneself in relation to a particular space Their contributions to this book expose how spaces were created and recreated through writing and symbolical representations in general They also show how the images of these spaces have been changing in consent to the intentions of their visitors and reveal that persistent and obstinate moment in a space that despite or in spite of changing perspectives itself refuses to be changed The book will encourage for further contributions to this expanding field in the humanities In their numerous and distinct ways the contributions to this particular book maintain that understanding how spaces are conceived and conceptualised is of pronounced importance in the globalized world in which cultures are gradually losing authenticities while their spaces geographical tourist spiritual literary aesthetic are as reflective of the visitors as they are of the hosts

How Literary Worlds Are Shaped Bo Pettersson, 2016-09-12 Literary studies still lack an extensive comparative analysis of different kinds of literature including ancient and non Western *How Literary Worlds Are Shaped A Comparative Poetics of Literary Imagination* aims to provide such a study Literature it claims is based on individual and shared human imagination which creates literary worlds that blend the real and the fantastic mimesis and genre often modulated by different kinds of unreliability The main building blocks of literary worlds are their oral visual and written modes and three themes challenge perception and relation They are blended and inflected in different ways by combinations of narratives and figures indirection thwarted aspirations meta usages hypothetical action as well as hierarchies and blends of genres and text types Moreover literary worlds are not only constructed by humans but also shape their lives and reinforce their sense of wonder Finally ten reasons are given in order to show how this comparative view can be of use in literary studies In sum *How Literary Worlds Are Shaped* is the first study to present a wide ranging and detailed comparative account of the makings of literary worlds

Radical Frontiers in the Spaghetti Western Austin Fisher, 2014-02-06 Ever more popular in the age of DVDs eBay and online fandom the *Spaghetti Westerns* of the 1960s have undergone a mainstream renaissance which has nevertheless left their intimate relationship to the troubled politics of 1960s Italy unexamined *Radical Frontiers* reappraises the genre in relation to the revolutionary New Left and the events of 1968 to uncover the complexities of a cinematic milieu

too often dismissed as formulaic and homogeneous Establishing the backdrop of post war Italy in which the Roman studio system actively blended Italian and American culture Austin Fisher looks in detail at the works of Damiano Damiani Sergio Sollima Sergio Corbucci Giulio Questi and Giulio Petroni and how these directors reformatted the Hollywood Western to yield new resonance for militant constituencies and radical groups Radical Frontiers identifies the main variants of these militant Westerns which brazenly endorsed violent peasant insurrection in the Mexico of the popular imagination turning the camera on the hitherto heroic colonialists of the West and exposing the brutal mechanisms of a society infested with latent fascism The ways in which the films artistic failures reflect the ideological confusions of the radical groups is examined and the genre s legacy is reappraised as the revolutionary energy of Italy s New Left becomes subsumed amidst the conflicting agendas of New Hollywood blaxploitation and the grindhouse revival of Tarantino Rodriguez and Raimi Reclaiming the Spaghetti Western from the domain of the merely cool and repositioning it within the spectrum of late 1960s radical cinema Radical Frontiers analyses the genre s narrative and cinematographic inscriptions in their political context to uncover Far Left doctrines in these tales of outlaws and sheriffs banditry and redemptive violence

Eastern Westerns Stephen Teo, 2017-01-12 The western one of Hollywood s great film genres has surprisingly enjoyed a revival recently in Asia and in other parts of the world whilst at the same time declining in America Although the western is often seen as an example of American cultural dominance this book challenges this view It considers the western from an Asian perspective exploring why the rise of Asian westerns has come about and examining how its aesthetics styles and politics have evolved as a result It analyses specific Asian Westerns as well as Westerns made elsewhere including in Australia Europe and Hollywood to demonstrate how these employ Asian philosophical and mythical ideas and value systems The book concludes that the western is a genre which is truly global and not one that is purely intrinsic to America

Reading The Virginian in the New West Melody Graulich, Stephen Tatum, 2003-01-01 Although the origins of the western are as old as colonial westward expansion it was Owen Wister s novel The Virginian published in 1902 that established most of the now familiar conventions of the genre On the heels of the classic western s centennial this collection

of essays both re-examines the text of *The Virginian* and uses Wister's novel as a lens for studying what the next century of western writing and reading will bring. The contributors address Wister's life and travels, the novel's influence on and handling of gender and race issues and its illustrations and various retellings on stage, film and television as points of departure for speculations about the new West as indeed Wister himself does at the end of the novel. The contributors reconsider the novel's textual complexity and investigate *The Virginian's* role in American literary and cultural history. Together their essays represent a new western literary studies comparable to the new western history. [American Western](#)

Stephen McVeigh, 2007-02-14. This wide-ranging book illuminates the importance of the Western in American history. It explores the interconnections between the Western in both literature and film and the United States in the 20th century. Structured chronologically, the book traces the evolution of the Western as a uniquely American form. The author argues that America's frontier past was quickly transformed into a set of symbols and myths, an American meta-narrative that came to underpin much of the American century. He details how and why this process occurred, the form and function of Western myths and symbols, the evolution of this mythology and its subversions and reconstructions throughout the 20th century American history. The book engages with the full range of historical, literary and cinematic perspectives and texts from the founding Western histories of Theodore Roosevelt and Frederick Jackson Turner to the New Western history of Patricia Nelson Limerick and Richard White. *Authenticity in North America* Jane Lovell, Sam Hitchmough, 2019-11-25. This interdisciplinary book addresses the highly relevant debates about authenticity in North America, providing a contemporary re-examination of American culture, tourism and commodification of place. Blending social sciences and humanities research skills, it formulates an examination of the geography of authenticity in North America and brings together studies of both rurality and urbanity across the country, exposing the many commonalities of these different landscapes. Relph stated that nostalgic places are inauthentic, yet within this work several chapters explore how festivals and visitor attractions, which cultivate place heritage appeal, are authenticated by tourists and communities, creating a shared sense of belonging. In a world of hyperreal simulacra, post-truth and fake news, this book bucks the trend by demonstrating that authenticity can be found everywhere: in a mouthful of food, in a few bars of a Beach Boys song, in a statue of a troll, in a diffuse magical atmosphere in the weirdness of the ungentrified streets. Written by a range of leading experts, this book offers a contemporary view of American authenticity, tourism, identity and culture. It will be of great interest to upper-level students, researchers and academics in Tourism, Geography, History, Cultural Studies, American Studies and Film Studies. [The US-Mexico Border in American Cold War Film](#) Stephanie Fuller, 2016-04-29. Through an analysis of Cold War Era films including *Border Incident*, *Where Danger Lives* and *Touch of Evil*, Stephanie Fuller illustrates how cinema across genres developed an understanding of what the U.S.-Mexico border meant within the American cultural imaginary and the ways in which it worked to produce the border.
