Teachers' Day Speech

"Instead of celebrating my birthday, it would be my proud privilege if September 5th is observed as Teachers' Day." - said Dr. Sarvepalli Radhakrishnan.

It is quite clear that the doctor understood the worth of a teacher. I'm here to do the same, to estimate the worth of a teacher in our lives. Now I'm not very good at Math but I'm pretty sure this one's not a miscalculation.

The first thing anybody thinks of when they hear the word 'Teacher', education comes to their mind. Now the only problem with this is how we perceive education. Is it just about knowing the valency of silicon or remembering what temperature suits the growth of crocus? Or is it about improving ourselves holistically and understanding that its better to know how to learn than to know? And this is where you come in, the teachers, the educationalists. And not all the teachers in the world, but you the teachers here at Campus. You've made us learn three very important things besides Newton's Laws

- To focus more on improving ourselves so we don't have the energy to criticize others
- Never letting compliments get to head and criticism get to our hearts
- We are students for life, and learning never stops
