Coterie Poetics and the Beginnings of the English Literary Tradition R. D. Perry,2024-05-21 In *Coterie Poetics and the Beginnings of the English Literary Tradition* R D Perry reveals how poetic coteries formed and maintained the English literary tradition Perry shows

that from Geoffrey Chaucer to Edmund Spenser the poets who bridged the medieval and early modern periods created a profusion of coterie forms as they sought to navigate their relationships with their contemporaries and to the vernacular literary traditions that preceded them Rather than defining coterie solely as historical communities of individuals sharing work Perry reframes them as products of authors signaling associations with one another across time and space in life and on the page From Geoffrey Chaucer's associations with both his fellow writers in London and with his geographically distant French contemporaries to Thomas Hoccleve's emphatic insistence that he was *aqweyntid* with Chaucer even after Chaucer's death to John Lydgate's formations of virtual coterie of a wide range of individuals alive and dead who can only truly come together on the page the book traces how writers formed the English literary tradition by signaling social connections By forming coterie both real and virtual based on shared appreciation of a literary tradition these authors redefine what should be valued in that tradition shaping and reshaping it accordingly Perry shows how our notion of the English literary tradition came to be and how it could be imagined otherwise

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the *Thousand and One Nights* or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Alain Chartier Edward Joseph Hoffman,1975 *Liberty and the Ecological Crisis* Katie Kish,Christopher Orr,Bruce Jennings,2019-11-27 This book examines the concept of liberty in relation to civilization s ability to live within ecological limits Freedom in all its renditions choice thought action has become inextricably linked to our understanding of what it means to be modern citizens And yet it is our relatively unbounded freedom that has resulted in so much ecological devastation Liberty has piggy backed on transformations in human nature relationships that characterize the Anthropocene increasing extraction of resources industrialization technological development ecological destruction and mass production linked to global consumerism This volume provides a deeply critical examination of the concept of liberty as it relates to environmental politics and ethics in the long view Contributions explore this entanglement of freedom and the ecological crisis as well as investigate alternative modernities and more ecologically benign ways of living on Earth The overarching framework for this collection is that liberty and agency need to be rethought before these strongly held ideals of our age are forced out On a finite planet our choices will become limited if we hope to survive the climatic transitions set in motion by uncontrolled consumption of resources and energy over the past 150 years This volume suggests concrete political and philosophical approaches and governance strategies for learning how to flourish in new ways within the ecological constraints of the planet Mapping out new ways forward for long term ecological well being this book is essential reading for students and scholars of ecology environmental ethics politics and sociology and for the wider audience interested in the

human Earth relationship and global sustainability Thomistic Tradition and Human Rights Carlos Isler Soto, 2023-09-22

The present book verses on the current discussion between authors writing within the Thomistic tradition on the issue of human rights and pretends to adjudicate that discussion The positions of authors who are critical of the notion of human rights like Michel Villey and Alasdair MacIntyre as well as that of those who try to justify their existence and explain their nature like Jacques Maritain John Finnis and others are carefully explained and evaluated This book is the first to deal in detail with this contemporary discussion and therefore represents an important contribution to the bibliography on the philosophy of human rights as well as to the bibliography on the Thomistic tradition
