Diocese of Lincoln Philippa Hoskin,2019-01-07 In this book Philippa Hoskin offers an account of the pastoral theory and practice of Robert Grosseteste bishop of Lincoln 1235 1253 within his diocese Grosseteste has been considered as an eminent medieval philosopher and theologian and as a bishop focused on pastoral care but there has been no attempt to consider how his scholarship influenced his pastoral practice Making use of Grosseteste s own writings philosophical and theological as well as pastoral and administrative Hoskin demonstrates how Grosseteste s famous interventions in his diocese grew from his own theory of personal obligation in pastoral care as well as how his personal involvement in his diocese could threaten well developed clerical and lay networks **A Summary View and Explanation of the Writings of the**

Regeneration 1200 900 BCE presents select essays originating in a two year research collaboration between New York University and Paris Sciences et Lettres The contributions here offer new results and interpretations of the processes and outcomes of the transition from the Late Bronze Age to the Iron Age in three broad regions Anatolia northern Mesopotamia and the Levant Together these challenge the notion of a uniform macroregional collapse throughout the Eastern Mediterranean followed by the regeneration of political powers Current research on newly discovered or reinterpreted textual and material evidence from Western Asia instead suggests that this transition was characterized by a diversity of local responses emerging from diverse environmental settings and culture complexes as evident in the case studies collected here in history archaeology and art history The editors avoid particularism by adopting a regional organization with the aim of identifying and tracing similar processes and outcomes emerging locally across the three regions Ultimately this volume reimagines the Late Bronze Iron Age transition as the emergence of a set of recursive processes and outcomes nested firmly in the local cultural interactions of western Asia before the beginning of the new unifying era of Assyrian imperialism
