

National Student Financial Aid Scheme (NSFAS)

NSFAS is a **government loan scheme**, with the added incentive of a bursary conversion (maximum of 40%) depending on academic performance.

- If you do well, 40% of this can be converted to a bursary!!
 - If you fail, you will have to pay back EVERYTHING!
-
- **Academically deserving and financially needy students** have the opportunity to apply for a loan from NSFAS, part of which can be converted to a bursary, subject to academic results.
 - Loans do not always cover tuition fees and other study costs in full. The amount of the loan is determined, among other things, by the family's financial need and the student's cost of study.
 - Application forms available online: www.nsfas.org.za

Practical Wisdom and Resilience Overcoming Downside Risk Kazuyo Hanai, Rangarirai Gavin Muchetu, Laban Kithinji Kinyua, Yoichi Mine, 2025-05-24 This book classifies and assesses the real and perceived risks associated with both the Covid 19 pandemic and government responses to it in seven African countries DR Congo Kenya Ethiopia South Africa Tanzania Uganda and Zimbabwe based on large scale quantitative and qualitative surveys conducted in 2022 2024 It also elucidates the people s resilience in overcoming the risks within their political social and cultural context Although research on COVID 19 has been conducted in various fields particularly in the medical field the analytical perspective of this book is unique COVID 19 prevention policies are considered to have seriously increased other risks such as hunger other infectious diseases interruption of education and various types of human rights violations including increased conflict violence against civilians and political abuse Therefore this book argues that COVID 19 prevention policies as well as the pandemic itself should be regarded as the downside risk that triggers the deterioration of the other potential risks to vulnerable people Depicted here is the account of how trust in government community and family within the existing political social and cultural environment created pandemic politics as elections during the pandemic instrumentalized and politicized government prevention measures Economic distress threatened people s lives more than COVID 19 during lockdowns and severe behavioral restrictions and the spread of misinformation discouraged people from being vaccinated

This book will be useful to policy makers and practitioners in international society who are preparing for the next pandemic based on the lessons learned from the COVID 19 pandemic *Knowledge Beyond Colour Lines* Monwabisi K.

Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education The need for academics to contemplate its relevance worth use and everything in between deems a continuous intellectual project rather than a conundrum to be solved This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge Through original research and the voices of academics and students this book argues for repurposing knowledge generation knowledge sharing and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained The contentious tensionalities that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines Prof Shan Simmonds PhD NWU This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa The issues dealt with here are varied and encompassing They are treated with intellectual delicacy and probing sensitivity articulacy informed data and bold conclusions They serve well Prof Kwesi Kwaa Prah Emeritus Professor of Sociology University of the Western Cape Founder of the Centre for Advanced Studies of African Society *Umrabulo* ,2001 *Social Justice and Education in the 21st Century* Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy *From School to Higher Education?* Michael Cosser, Jacques Du Toit, 2002 This substantive report is essential reading for those involved in higher education planning and policy making
