Griffiths,2013-06-17 The Atlas of African Affairs is divided into five sections dealing with environmental historical political and economic issues and with Southern Africa Throughout the book presents an interdisciplinary integrated perspective on African affairs Most of the chapters deal with continent wide themes and are illustrated by maps of Africa as a whole drawn to a standardised outline of the same map projection and scale Other chapters often by way of example discuss parts of the continent or individual countries and are illustrated with appropriate maps The basic format of integrated text and maps is supplemented by guides to further reading at the end of each section as well as a series of detailed statistical tables at the end of the book **An African Affair** Wendy Canning Church,1997-01-01 *Notes on South African Affairs from 1834 to 1838. E. Merdinger,1997-01-01 This groundbreaking book examines the vibrant North African Christian Church of the 4th and 5th centuries and its relationship to Rome Merdinger provides a lively account of cases of canon law that arose in Africa but were adjudicated in Rome including the notorious Apiarius affair and shows how African Christians gradually became dependent on the papacy for enforcement of church discipline A tour de force Engagingly readable full of lively details it provides both an accessible introduction to the development of papal and episcopal authority in the West and a challenging new reading of the evidence for the initiated scholar Merdinger's use of the recently published Divjak letters of St Augustine to re interpret the relations of the Roman and North African Churches in the early fifth century is particularly exciting Clearly this is the fullest and most sophisticated treatment available in English of a crucial period in the growth of

Church life and structures Brian E Daley S J University of Notre Dame Merdinger's book achieves the seemingly impossible task of making the subject not only of wide general interest but actually a gripping read the excitement of the cases which illustrate her central thesis often read like a very good historical novel Her gift for telling a good story holds together a complicated and often protracted plot in an engaging way characters breathe emotions are stirred circumstantial details beguile complexity lends richness rather than confusion This is history at its best Carol Harrison Church Time The Oxford Handbook of the African Sahel Leonardo A. Villalón, 2021-10-15 Long on the margins of both scholarly and policy concerns the countries of the West African Sahel have recently attracted world attention primarily as a key battleground in the global war on terror This book moves beyond this narrow focus providing a multidimensional and interdisciplinary assessment of the region in all of its complexity The focus is on the six countries at the heart of the Sahelian geographic space Senegal Mauritania Mali Burkina Faso Niger and Chad Collectively the chapters explore the commonalities and interconnections that link these countries and their fates while also underscoring their diversity and the variations in their current realities The Sahel today is at an important crossroads under multiple pressures of diverse kinds environmental political demographic and economic as well as rapidly changing social and religious dynamics It is also marked by striking dynamism and experimentation drawing on a long history of innovation and cultural transfer In many ways the Sahel is today on the cutting edge of grand natural experiments exploring how humans will adapt to climate change to technological innovation to the global movement of populations and the restructuring of world politics to urbanization social change and rapid demographic growth and to inter religious contact The region is a weathervane on the front lines of the forces of global change In nine thematic sections the chapters in this book offer holistic analyses of the key forces shaping the region Including scholars based in Africa Europe and the United States the authors represent an exceptional breadth and depth of expertise on the Sahel *Women's Social and Legal Issues in African Current Affairs* Victoria M. Time, 2016-12-06 This volume explores the difficulties that beset African women and inhibit them from excelling in many walks of life in the twenty first century Asymmetrical relations in society position women in subjugated and marginalized roles This is caused by customary practices that have left women in vulnerable and subsidiary positions as well as statutory provisions that fester this process Despite its richness in raw materials and minerals Africa remains slow to grow when compared to other continents The economies of most African countries is severely anemic corruption is rife poor governance is systemic and wars conflicts famine and diseases abound Stalled economies disproportionately affects women for example as nurturers women have the extra responsibility of taking care of children and members of the extended family In times of want women are more likely to give up the little they have so that their children and others may survive This book shows the various social and legal obstacles that stall women's upward mobility and offers recommendations on how these issues can be resolved *The African Union* Omar Alieu Touray, 2016-12-01 This book offers a comprehensive analysis of the African Union during the organization's first

ten years of existence It takes the reader through the various intergovernmental processes that preceded and followed the establishment of the Union and through the workings of key organs such as the Assembly of Heads of State the Council of Ministers the Pan African Parliament and the Commission The study argues that the African Union represented a rational choice of its member states who saw it as a means to advancing their individual and collective preferences for liberation peace and security good governance and socio economic development It maintains that the African Union did not only make marked progress in a number of areas the Union also established norms that had transformational effects on military and political elites at country and regional levels However like in most agent principal relations the autonomy of the Union was limited in many ways and this affected the Union s effectiveness in such areas as human and socio economic development as well as in sustaining peace support operations At a more general level the study argues that the African Union offers clear insights into integration as a multidimensional process that no single theoretical tradition can explain in a comprehensive manner The author s response to such a theoretical limitation is fusionism an integrated approach that amalgamates various analytical traditions in order to provide a better explanation of the processes of international integration The detailed analysis and bold proposals will undoubtedly make the study appealing not only to specialists in African Studies but equally to a broader spectrum of international relations and development scholars
