W. McLeod, 2022-07-08 For the first time in years Ellyria has everything she could ever want but with the upcoming loss of her demonic boyfriend weighing heavily on her mind greed drives her to take more An unknown magical affliction leaves her disfigured and searching for answers When the only one who may be able to help turns out to be the devil himself she must decide how important keeping her demon by her side actually is This book was originally published as Ex Gratia Book 2 of the Terms and Conditions trilogy Morphological and Syntactical Irregularities in the Book of Revelation Laurențiu Moț, 2015-03-31 Morphological and Syntactical Irregularities in the Book of Revelation by Laurențiu Florentin Mo is an approach to the solecisms of Johannine Apocalypse from a Greek perspective The work aims at demonstrating that in accord with Second Language Acquisition studies Semitic transfer in Revelation is extremely rare Most of its linguistic peculiarities can be explained within the context of the Greek language Morphological and Syntactical Irregularities in the Book of Revelation is unique in several ways First it deals with the most comprehensive list of solecisms Second it treats grammatical irregularities in their own right looking at their cause explanation and contribution to the interpretation of the text Third it is interdisciplinary bringing together textual criticism Greek linguistics and NT exegesis *After the Apocalypse* Srećko Horvat, 2021-02-11 In this post apocalyptic rollercoaster ride philosopher Sre ko Horvat invites us to explore the Apocalypse in terms of revelation rather than as the end itself He argues that the only way to prevent the end i e extinction is to engage in a close reading of various interconnected threats such as climate crisis the nuclear age and the ongoing pandemic Drawing on the work of neglected philosopher G nther Anders this book outlines a philosophical approach to deal with what Horvat borrowing a term from climate science and giving it a theological twist calls eschatological tipping points These are no longer just the nuclear age or climate crisis but their collision conjoined with various other major threats not only pandemics but also the viruses of capitalism and fascism In his investigation of the future of places such as Chernobyl the

Mediterranean and the Marshall Islands as well as many others affected by COVID 19 Horvat contends that the revelation appears simple and unprecedented the alternatives are no longer socialism or barbarism our only alternatives today are a radical reinvention of the world or mass extinction After the Apocalypse is an urgent call not only to mourn tomorrow's dead today but to struggle for our future while we can *Dealing with Disasters from Early Modern to Modern Times* Hanneke Asperen, Lotte Jensen, 2025-10-01 Disasters are as much cultural as natural phenomena For centuries news about catastrophic events has been disseminated through media such as chronicles pamphlets newspapers poems drawings and prints Nowadays we are overwhelmed with news about the cataclysmic effects of recent forest fires floods and storms Due to the ongoing climate crisis extreme weather events will likely have ever greater impacts on our lives This volume addresses cultural representations of catastrophes such as floods epidemics and earthquakes over the centuries In the past as now artists and authors try to make sense of disasters grasp their impact and communicate moral religious or political messages These creations reflect and shape how people learn and think about disasters that occur nearby or far away both in time and space The parallels between past and present underline how this book contributes to modern debates about cultural and creative strategies in response to disasters
