The Art Of Science Of Screenwriting:

The Art and Science of Screenwriting Philip Parker, 1998 This is an introduction to the essential elements of screenwriting from finding an idea to creating a finished screenplay The text includes methodology how to apply creative vision a focus on the project itself and considers the work prior to deciding the format as well as the market It uses contemporary film and television examples from the UK Europe and across the world *The Science of Screenwriting* Paul Joseph Gulino, Connie Shears, 2018-02-08 In a world awash in screenwriting books *The Science of Screenwriting* provides an alternative approach that will help the aspiring screenwriter navigate this mass of often contradictory advice exploring the science behind storytelling strategies Paul Gulino author of the best selling *Screenwriting The Sequence Approach* and Connie Shears a noted cognitive psychologist build chapter by chapter an understanding of the human perceptual cognitive processes from the functions of our eyes and ears bringing real world information into our brains to the intricate networks within our brains connecting our decisions and emotions They draw on a variety of examples from film and television *The Social Network Silver Linings Playbook and Breaking Bad* to show how the human perceptual process is reflected in the storytelling strategies of these filmmakers They conclude with a detailed analysis of one of the most successful and influential films of all time *Star Wars* to discover just how it had the effect that it had ***The Psychology of Screenwriting*** Jason Lee, 2013-07-18 *The Psychology of Screenwriting* is more than an interesting book on the theory and practice of screenwriting It is also a philosophical analysis of predetermination and freewill in the context of writing and human life in our mediated world of technology Drawing on humanism existentialism Buddhism postmodernism and transhumanism and diverse thinkers from Meister Eckhart to Friedrich Nietzsche Theodor Adorno Jacques Derrida Jean Baudrillard and Gilles Deleuze *The Psychology of Screenwriting* will be of use to screenwriters film students philosophers and all those interested in contemporary theory This book combines in depth critical and cultural analysis with an elaboration on practice in an innovative fashion It explores how people such as those in the Dogme 95 movement have tried to overcome traditional screenwriting looking in detail at the psychology of writing and the practicalities of how to write well for the screen This is the first book to include high theory with screenwriting practice whilst incorporating the Enneagram for character development Numerous filmmakers and writers including David Lynch Jim Jarmusch David Cronenberg Pedro Almod var Darren Aronofsky Sally Potter and Charlie Kaufman are explored *The Psychology of Screenwriting* is invaluable for those who want to delve deeper into writing for the screen ***The Palgrave Handbook of Screenwriting Studies*** Rosamund Davies, Paolo Russo, Claus Tieber, 2023-07-27 This book provides an overview of the growing field of screenwriting research and is essential reading for both those new to the field and established screenwriting scholars It covers topics and concepts central to the study of screenwriting and the screenplay in relation to film television web series animation games and other interactive media and includes a range of approaches from theoretical perspectives to in depth case studies 44 scholars from

around the globe demonstrate the range and depths of this new and expanding area of study As the chapters of this Handbook demonstrate shifting the focus from the finished film to the process of screenwriting and the text of the screenplay facilitates valuable new insights This Handbook is the first of its kind an indispensable compendium for both academics and practitioners

Screenplay and Narrative Theory George Varotsis, 2015-10-01 Screenplay and Narrative Theory draws attention to the notion that in order to comprehend complex narrative dynamics which are encountered in a great variety of narrative genres forms and formats a more comprehensive theory of narrative is required George Varotsis explains how a work of narrative functions synergistically and systemically as well as elucidates the heuristic problem solving mechanisms that are employed in various structural levels of thought processes which allow the coherent accumulative derivative we call a story to emerge The transition from an empirical to theoretical perspective is achieved by introducing characteristics of complex narrative systems a network of narrative components i e characters structure goals motivations theme plot and subplots narrative action etc which are arranged hierarchically over three fundamental levels of structure i e deep intermediate and surface structure that interact parallel to one another in non linear ways Varotsis tackles questions about how stories semantically emerge in the underlying dynamics that allow a work of narrative to function as a unified whole

Societies in Space Gary Westfahl, 2024-08-29 Science fiction films and television programs about space travel have undergone a significant transformation since their inception In contrast to the early depictions of small spaceship crews on exploratory missions recent film and television portrayals depict much larger societies in space as well as the obstacles that arise with them This collection of essays examines many aspects of making space travel films from the process of screenwriting to the impact of Greek myth on modern film with illuminating commentary on contemporary problems including class distinction racism and sexism Contributors to this volume including several extensively published scholars and science fiction writers analyze a wide variety of relevant science fiction films and television programs ranging from Star Trek Silent Running the Alien films and Japanese anime to more recent works like Battlestar Galactica Avatar Elysium The Martian Passengers and Ad Astra

Visions of Mars Howard V. Hendrix, George Slusser, Eric S. Rabkin, 2014-01-10 Seventeen wide-ranging essays explore the evolving scientific understanding of Mars and the relationship between that understanding and the role of Mars in literature, the arts, and popular culture. Essays in the first section examine different approaches to Mars by scientists and writers: Jules Verne and J. H. Rosny. Section Two covers the uses of Mars in early Bolshevik literature: Wells, Brackett, Burroughs, Bradbury, Heinlein, Dick, and Robinson, among others. The third section looks at Mars as a cultural mirror in science fiction. Essayists include prominent writers, e.g., Kim Stanley Robinson, scientists, and literary critics from many nations.
