Seven Letters to Melin Josef Šafařík,2020-10-01 Seven Letters to Melin is an exploration of man s alienation from nature and from himself in the modern technological age Conceived as a series of letters to Melin an engineer who believes in the value of science and technical progress the book grows skeptical of such endeavors while also examining mankind s search for meaning in life To help uncover this meaning afa k posits a dichotomy between spectator and participant The role of participant is played by Robert an artist who has committed suicide The spectator embodied by the scientist Melin views the world from a distance and searches for explanations while the artist participant creates the world through his own active engagement Through these exchanges afa k argues for the primacy of artistic creativity over scientific explanation of truth

over accuracy of internal moral agency over an externally imposed social morality and of personal religious belief over organized church going afa k is neither anti scientific nor anti rational however he argues that science has limited power and he rejects the idea of science that denies meaning and value to what cannot be measured or calculated afa k s critiques of technology the wage economy and increased professionalization make him an important precursor to the philosophy of deep ecology This book was also a major influence on the Czech president V clav Havel in this new translation it will find a fresh cohort of readers interested in what makes us human **Community Relational Soul Care** Dr. Julie A. Larsen,2023-03-27
