The Art Dealer's Apprentice David Guenther, 2024-03-05 The Art Dealer's Apprentice tells the story of how the author moved to New York in 1989 as a young Midwesterner found a job at an Upper East Side gallery and became the protégé of Carla Panicali an Italian countess and major international art world figure From Carla an extraordinary woman whom he deeply admired the author learned to navigate the treacherous waters of authenticity power and money in the art business and his own life As gallery director he gradually piloted the gallery through a sea of fakes frauds and unscrupulous colleagues competitors collectors and experts until the art market crashed and in the ensuing crisis in the increasingly money driven art world of the 1990s he came to question even the authenticity of his friendship with Carla In The Art Dealer's Apprentice the author recounts how he learned the New York art business from the inside including the roles of dealers auction houses runners collectors and experts the personal histories of famous artists and the art historical importance and salability of their work and how paintings and sculptures were or were not authenticated and sold often based surprisingly on factors having little to do with the artwork itself The author also details how international business was done in some cases through illicit transport of artworks payoffs to experts and Swiss bank accounts Increasingly disillusioned the author ultimately concludes that by the early 1990s the art business was no longer really about art

Art Market and Connoisseurship Anna Tummers,Koenraad Jonckheere,2008 The question of whether seventeenth century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which paintings were produced assessed priced and marketed during this period which leads to several provocative questions did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand Who was credited with the ability to assess paintings as genuine The contributors to this engaging collection Eric Jan Sluiter Hans Van Miegroet and Neil De Marchi among them trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions
