present work fills a gap as it attempts to offer a history of erotic literature published in the United Kingdom The word Study in the title is perhaps a bit exaggerated as the material is largely taken from the now well known bibliographies by Pisanus Fraxi Henry Spencer Ashbee and quotations from the books themselves The time line is WW II Who was the author He may have been Charles Reginald Dawes 1879 1964 who is supposed to have written but not published a text of this or a similar title His profession or his activities are not known he once called himself a writer but library catalogues credit him only with two publications *The Marquis de Sade* Paris 1927 and *Retif de la Bretonne* London 1946 privately printed He may have been a popular writer under pseudonyms though Dawes owned a good erotica collection which he willed to the British Museum Library that would explain why the author of this Study if he was Dawes could quote freely from erotic texts which only few of his contemporaries would have had available The main merits of this book are that the author was thoroughly familiar with English and French erotic literature and that he put his material in chronological order and in context The editor added a number of references illustrations and indices of personal names and titles to facilitate navigation

McCracken-Flesher,1985 **The Oxford History of Poetry in English** ,2024-08-08 The Oxford History of Poetry in English OHOPE is designed to offer a fresh multi voiced and comprehensive analysis of poetry from Anglo Saxon culture through contemporary British Irish American and Global culture including English Scottish and Welsh poetry Anglo American colonial and post colonial poetry and poetry in Canada Australia New Zealand the Caribbean India Africa Asia and other international locales OHOPE both synthesizes existing scholarship and presents cutting edge research employing a global team of expert contributors for each of the fourteen volumes By taking as its purview the full seventeenth century 1603 1700 this volume re draws the existing literary historical map and expands upon recent rethinking of the canon Placing the revolutionary years at the centre of a century of poetic transformation and putting the Restoration back into the seventeenth century the volume registers the transformative effects on poetic forms of a century of social political and religious upheaval It considers the achievements of a number of women poets not yet fully integrated into traditional literary histories It

assimilates the vibrant literature of the English Revolution to what came before and after registering its long term impact It traces the development of print culture and of the literary marketplace alongside the continued circulation of poetry in manuscript It places John Milton Andrew Marvell Margaret Cavendish and Katherine Philips and other mid century poets into the full century of specifically literary development It traces continuity and change imitation and innovation in the full century trajectory of such poetic genres as sonnet elegy satire georgic epigram ode devotional lyric and epic The volume s attention to poetic form builds on the current upswing in historicist formalism allowing a close focus on poetry as an intensely aesthetic and social literary mode Designed for maximum classroom utility the organization is both thematic and in the authors section chronological After a comprehensive Introduction organizational sections focus on Transitions Materiality Production and Circulation Poetics and Form Genres and Poets Exhibited by Candlelight ,2022-05-20 Exhibited by Candlelight Sources and Developments in the Gothic Tradition focuses on a number of strands in the Gothic The first is Gothic as a way of looking Paintings used as reference points tableaux or the Hammer Studios visualizations of Dracula present ways of seeing which are suggestive and allow the interplay of primarily sexual passions Continuity with the past is a further strand which enables us to explore how the sources of the Gothic are connected with the origin of existence and of history both individual and general Here the Gothic offers a voice for writers whose perceptions do not fit into those of the dominant group which makes them sensitive both to psychological and social gaps This leads to an exploration of the very idea of sources and an attempt to bridge the gaps as can be observed in the variety of epithets used to clarify the ways that Gothic works ranging from heroic gothic to porno gothic This takes the reader to the main core of Gothic a genre which is always ready to admit new forms of the unreal to enter and change whatever has become mainstream literature and a way of reading and a mode profoundly affecting the reading experience The Gothic mode cultivates its wicked ways in literature working through it as a leavening yeast **The Autobiography of a Flea** ,1968 British Books ,1907 *Paris and the Cliché of History* Catherine Eleanor Clark,2018 *Paris and the Cliché of History* traces the changing historical meanings of photographs of this city during a century marked by urban renovation war occupation liberation and visual documentation Challenging the idea that photographs merely document the past it calls for new methods of reading photos as material objects with histories of their own and sheds insight on the capital s reduction to an image in the twentieth century
