Latin America and the Caribbean are often placed in the same geographical and economic grouping. However, too little is known in either region about the other's business cultures and marketplaces. *Marketing in Latin America and the Caribbean* is a casebook that analyses the marketing histories, challenges, strategies, and vision of small, medium, and large indigenous businesses from South America, Central America, Mexico, and the Caribbean. The book is divided into three core sections: Marketing Tactics (including product development, pricing, and digital marketing), Marketing Strategy (which considers brand development, targeting, and positioning, and competitive advantage), and Global and Regional Marketing (considering strategic alliances, global expansion, and supply chain management). The work also captures the competitive strategies used by indigenous firms to drive regional and global expansion in the face of sometimes turbulent marketing environments. Several of the cases in the book encourage student readers to assess the impact of the COVID-19 pandemic on the strategies and futures of Latin American and Caribbean firms. Filling a gap in the literature by focusing on this understudied region and its indigenous firms, this text is essential and recommended reading for advanced undergraduate and postgraduate students studying International Marketing, Marketing Management, and Strategy. It will also be of use to academic faculty seeking classroom material that captures authentic Latin American and Caribbean marketing realities. The work is supplemented by detailed Teaching Notes for each chapter, available online for instructors. *Exchange Rates and the Firm* R. Friberg, 1999-07-26. The first book to provide an integrated treatment of financial and operating strategies to exchange rate variability. The choice of price setting, currency, when and how to adjust prices, the limitations of hedging, and segmentation of national markets are some of the issues analyzed. The book investigates the impact of EMU. **Adapt Or Die: How the Internet Is Destroying Dealer Profits and What to Do about It** Kurt Baumberger, 2010-01-28.
